Population and Community Ecology for Insect Management and Conservation Johann Baumgartner, Pietro Brandmayr, Bryan F.J. Manly, 2020-03-09 One of the themes of the 20th International Congress of Entomology held in Florence in August 1996 was Ecology and Population Dynamics with papers presented on single species dynamics population interactions and community ecology This book contains a selection of the papers that were presented and gives a late 1990s picture of the latest research in this fast developing area

Phylogenies in Ecology Marc W. Cadotte, T. Jonathan Davies, 2016-08-09 Phylogenies in Ecology is the first book to critically review the application of phylogenetic methods in ecology and it serves as a primer to working ecologists and students of ecology wishing to understand these methods This book demonstrates how phylogenetic information is transforming ecology by offering fresh ways to estimate the similarities and differences among species and by providing deeper evolutionary based insights on species distributions coexistence and niche partitioning Marc Cadotte and Jonathan Davies examine this emerging area s explosive growth allowing for this new body of hypotheses testing Cadotte and Davies systematically look at all the main areas of current ecophylogenetic methodology testing and inference Each chapter of their book covers a unique topic emphasizes key assumptions and introduces the appropriate statistical methods and null models required for testing phylogenetically informed hypotheses The applications presented throughout are supported and connected by examples relying on real world data that have been analyzed using the open source programming language R Showing how phylogenetic methods are shedding light on fundamental ecological questions related to species coexistence conservation and global change Phylogenies in Ecology will interest anyone who thinks that evolution might be important in their data

Political Ecology of REDD+ in Indonesia Jonas I. Hein, 2018-11-21 Indonesia s commitment to reducing land based greenhouse gas emissions significantly includes the expansion of conservation areas but these developments are not free of conflicts This book provides a comprehensive analysis of agrarian conflicts in the context of the implementation of REDD Reducing Emissions from Deforestation and Forest Degradation and forest carbon offsetting in Indonesia a country where deforestation is a major issue The author analyzes new kinds of transnational agrarian conflicts which have strong implications for global environmental justice in the REDD pilot province of Jambi on the island of Sumatra The chapters cover the rescaling of the governance of forests privatization of conservation and the transnational dimensions of agrarian conflicts and peasants resistance in the context of REDD The book builds on an innovative conceptual approach linking political ecology politics of scale and theories of power It fills an important knowledge and research gap by focusing on the socially differentiated impacts of REDD and new forest carbon offsetting initiatives in Southeast Asia providing a multi scalar perspective It is aimed at scholars in the areas of political ecology human geography climate change mitigation forest and natural resource management as well as environmental justice and agrarian studies The Open Access version of this book available at <http://www.tandfebooks.com> doi
