Secondary School English Education in Asia Bernard Spolsky, Kiwan Sung, 2015-03-27 Continuing on from the previously published *Primary School English Language Education in Asia From Policy to Practice* Moon Spolsky 2012 this book compiles the proceedings which took place at the 2011 annual conference of AsiaTEFL which took place in Seoul Korea. It surveys the current status, practices, challenges and future directions of Secondary English education in 11 diverse countries: Israel, Japan, Korea, Singapore, Bangladesh, India, Indonesia, Malaysia, Pakistan, Vietnam, and China. Given the importance of secondary English education as the central feature for continuing development of target language and culture in English language teaching in Asia, each contributed chapter includes key policies, theories and practices related to the development and implementation of country-specific curricular and instructional programs in secondary English educational contexts in these countries. *Secondary School English Education in Asia From Policy to Practice* critically analyses both sides of the English language debate from advantages to complications in its chapters including *Educating for the 21st Century*, *The Singapore Experience*, *Miles to Go*, *Secondary Level English Language Education in India*, *English Language Education Innovation for the Vietnamese Secondary School*, *The Project 2020 Exploring the Value of ELT as a Secondary School Subject in China*, *A Multi-goal Model for English Curriculum*. *Secondary School English Education in Asia* will appeal to English Language Teaching (ELT) researchers, teacher educators, trainee teachers and teachers, primarily those teaching in Asia.

Handbook of Human and Social Conditions in Assessment Gavin T. L. Brown, Lois R. Harris, 2016-06-23. The *Handbook of Human and Social Conditions in Assessment* is the first book to explore assessment issues and opportunities occurring due to the real world of human cultural, historical and societal influences upon assessment practices, policies and statistical modeling. With chapters written by experts in the field, this book engages with numerous forms of assessment from classroom level formative assessment practices to national accountability and international comparative testing practices, all of which are significantly influenced by social and cultural conditions. A unique and timely contribution to the field of Educational Psychology, the *Handbook of Human and Social Conditions in Assessment* is written for researchers, educators and policy makers interested in how social and human complexity affect assessment at all levels of learning. Organized into four sections, this volume examines assessment in relation to teachers, students, classroom conditions and cultural factors. Each section is comprised of a series of chapters followed by a discussion chapter that synthesizes key ideas and offers directions for future research. Taken together, the chapters in this volume demonstrate that teachers, test creators and policy makers must account for the human and social conditions that shape assessment if they are to implement successful assessment practices which accomplish their intended outcomes. *Universities Handbook*, 2014. *English (Advanced)*.
