Facebook's potential as the ultimate internet go-to for people who want to find local businesses and products they might be interested in. Since then the company has executed a variety of functions that cater specifically to businesses to help them maximize the gains of using Facebook as a platform to connect with real prospects without having to go out and find them. These days any business that can't be found on Facebook is considered obsolete and outdated. With 90% of consumers looking first to Facebook in search of products and services, business that operate exclusively outside of the platform risk losing visibility in the midst of thick competition. Plus people feel more comfortable transacting with businesses through Facebook. It's convenient, it's easy, and it's familiar, and studies have found that prospects that reach out to businesses on Facebook tend to feel more secure knowing they're dealing with an entity that they can trust. Why? Well, it's not entirely clear why Facebook brings an air of familiarity and reliability, but many experts believe it's because the platform is used to connect with friends.

*The Rough Guide to Social Media for Beginners* Sean Mahoney, 2012-07-05. If you haven't joined the social media revolution yet, don't fret; there's still time. But with so much out there, where do you even start? Something more than a text message, something less than a phone call, not engaging in these new types of online social messaging could mean you are missing out on the action without either friends or followers. Business, leisure, and everything in between is covered, and this guide walks the uninitiated through setup to maintenance and gives you the skills to make your pages lively and relevant to the people you know or work with and the folk you're about to meet or reach out to. The term social media covers an ever-expanding suite of apps, blogs, and wikis, but this book focuses on the most popular and personal forms of social media: Facebook and Twitter. Significant attention is also paid to Google+, the latest direct challenge to Facebook's overwhelming dominance of social networking.
