**Wandering Lands and Animals** Edwin H. Colbert,1973      *Living Labor* Joseph B. Entin,2023-02-13 For much of the twentieth century the iconic figure of the U S working class was a white male industrial worker But in the contemporary age of capitalist globalization new stories about work and workers are emerging to refashion this image *Living Labor* examines these narratives and in the process offers an innovative reading of American fiction and film through the lens of precarious work It argues that since the 1980s novelists and filmmakers including Russell Banks Helena Vramontes Karen Tei Yamashita Francisco Goldman David Riker Ramin Bahrani Clint Eastwood Courtney Hunt and Ryan Coogler have chronicled

the demise of the industrial proletariat and the tentative and unfinished emergence of a new much more diverse and perilously positioned working class In bringing together stories of work that are also stories of race ethnicity gender and colonialism Living Labor challenges the often assumed division between class and identity politics Through the concept of living labor and its discussion of solidarity the book reframes traditional notions of class helping us understand both the challenges working people face and the possibilities for collective consciousness and action in the global present Cover attribution Allan Sekula Shipwreck and worker Istanbul from TITANIC s wake 1998 2000 Courtesy of the Allan Sekula Studio
