

## User maintenance

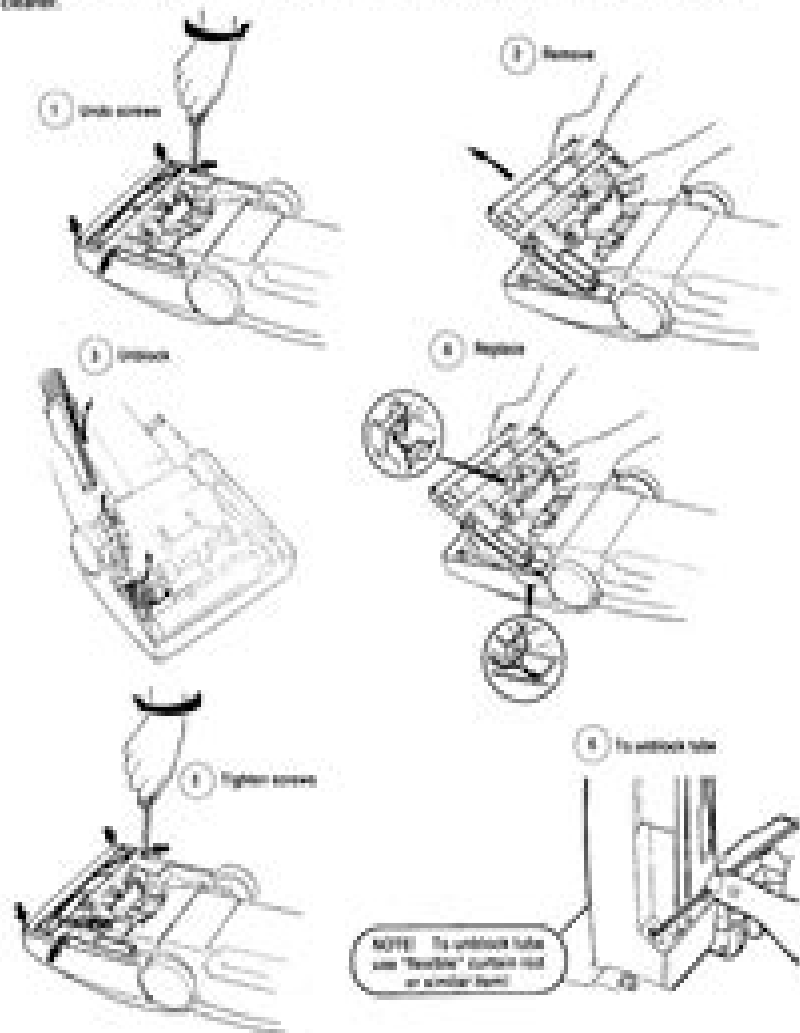

### Reduced pick-up . . . but suction at hose handle

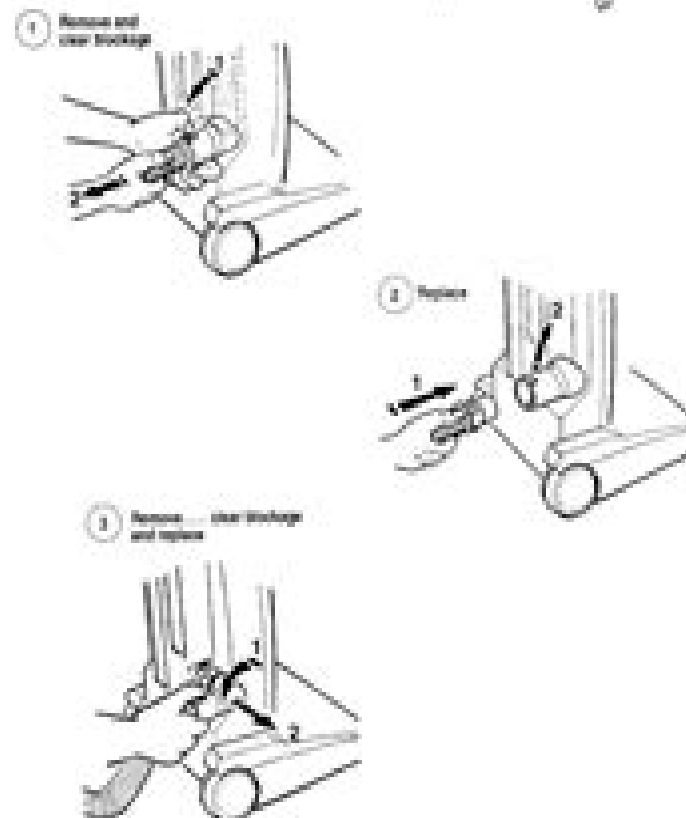

If your cleaner seems to pick up dust, a blockage may have occurred between the cleaning head and the dust bag. Clearing the blockage is simple.

#### IMPORTANT:

Switch the cleaner off and remove plug from electricity supply before repairing or servicing your cleaner.

### User maintenance . . . but no suction at hose handle

**IMPORTANT. Please Note . . .** On models 1401, 1402 and 1403 should a blockage occur in your cleaner the motor will automatically stop for a few minutes to prevent overheating. In this event switch off at the appliance and disconnect from the electricity supply. Allow to cool. Check for blockages (i.e. hose, clogged filter, full dust bag) before operating your cleaner again. N.B. If your cleaner does not start again, allow extra cooling down time.
