### Tracing traits Project

Have you ever wondered about the traits you inherited from your parent? Do you have a trait that either your parents has? In this project, you will develop a family tree, or pedigree, similar to the one shown below. You will trace an inherited trait through your family to determine how it has passed from generation to generation.

#### Procedure:

1. The diagram at the right shows a family history. On a separate sheet of paper, draw a similar diagram of the family you have chosen. Include as many family members as possible, such as grandparents, parents, children, and grandchildren. Use circles to represent females and squares to represent males. You may include other information, such as the family member's name, birth date, or picture.

Example of a pedigree chart. Make your own on a separate sheet of paper.
