

# Interpreting the results

- For each question, the response to each answer is presented as both a percentage (%) and as a number (n). The total number of stakeholders who answered each question (the base size) is also stated at the bottom of each chart and in every table. For questions with fewer than 30 stakeholders answering, we strongly recommend that you look at the number of stakeholders giving each response rather than the percentage, as the percentage can be misleading when based on so few stakeholders.
- This report presents the results from North Staffordshire CCG's stakeholder survey. Throughout the report, 'the CCG/your CCG' refers to North Staffordshire CCG.
- Where results do not sum to 100%, or where individual responses (e.g. tend to agree; strongly agree) do not sum to combined responses (e.g. strongly/tend to agree) this is due to rounding.
