Yet, until today, nothing clear and concrete had been formulated for its total remedy, - the reason why, much have been searched and re-searched to discover effective methods in combating criminalities, identifying factors that lead to the cause of crimes and identifying behavior of would-be offender.

Criminology is a science which deals with the study of crime, the study of forms of criminal behavior, the causes of crime, the definition of criminality, and the societal reaction towards criminal activity, it must be understood that the study of criminology is closer to the study of psychology than criminal justice because it studies the mind and behaviors of criminals as opposed to their criminal conduct.
