Consciousness and the Neoliberal Subject Jon Bailes, 2020-04-08 *Consciousness and the Neoliberal Subject* outlines a theory of ideological function and a range of ideological positions according to which individuals rationalise and accept socio economic conditions in advanced consumer capitalist societies Through a critical examination of the social and psychoanalytic theories of Herbert Marcuse Fredric Jameson and Slavoj Žižek the author extends the understanding of ideology to consider not only the unconscious attachment to social relations but also the importance of conscious rationalisation in sustaining ideologies In this way the book defines different ideologies today in terms of the manner in which they conditionally internalise a dominant neoliberal rationality and considers the possibility that entrenched social norms may be challenged directly through conscious engagement It will appeal to scholars of social and political theory with interests in ideology neoliberalism psychoanalytic thought and critical theory **Contemporary Political Ideologies**
