*Continental Anti-Realism* Richard Sebold,2014-11-03 There has been a resurgence of interest in the problem of realism the idea that the world exists in the way it does independently of the mind within contemporary Continental philosophy Many if not most of those writing on the topic demonstrates attitudes that range from mild skepticism to outright hostility Richard Sebold argues that the problem with this is that realism is correct and that the question should then become what happens to Continental philosophy if it is committed to the denial of a true doctrine Sebold outlines the reasons why realism is superior to anti realism and shows how Continental philosophical arguments against realism fail Focusing on the work of four important philosophers Kant Hegel Nietzsche and Husserl all of who have had a profound influence on more recent thinkers he provides alternative ways of interpreting their apparently anti realist sentiments and demonstrates that the insights of these Continental philosophers are nevertheless valuable despite their problematic metaphysical beliefs Continental

Jon Cogburn,2017-03-08 The publication of *Form and Object A Treatise on Things* by Tristan Garcia Prix de Flore winning novelist philosopher essayist and screenwriter is a genuine event in the history of philosophy Situating this event within classical modern and contemporary dialectical space Jon Cogburn evaluates Garcia s metaphysics differential ontology and militant anti reductionism through a series of seemingly incompatible oppositions substance process analysis dialectic simple whole and discovery creation ogburn also includes a critical assessment of the consequences of Garcia s philosophy the various unresolved problems in his treatise and the future prospects of speculative metaphysics **History and the Study**

**of Religion** Stanley Stowers,2024 How does one understand religion Can one explain religion How does one understand the craft and discipline of the historian How can one best bring together the study of religion with the craft and discipline of the historian I am a historian who works in the study of religion and believe that the present intellectual moment offers enormous in some ways unprecedented opportunities both in the study of religion and historiography But at the same time difficulties and dangers loom together with the opportunities My specialty and prime set of examples lie in the study of

ancient Mediterranean religion if indeed there is something that can rightly be called Mediterranean religion or even called religion Many specialists in the study of religion and also many of those who study ancient cultures doubt or even reject outright religion as a cross historical category on the one hand and on the other anything common about religion across the ancient Mediterranean And some cognitive scientists who against religion specialists have argued for the centrality of gods to religion then agree with the skeptics that religion is not a coherent social object a social kind I will argue that long discredited forms of anti realism and untenable anthropocentrism haunt both groups Among other areas I work in Christianity and Judaism Do they belong to Mediterranean religion One can easily see how coming to an understanding of what religion is and what Mediterranean religion is form key questions I will argue that religion is a robust realistic entity a social kind and that ancient Mediterranean religion even with all of its great diversity operated with some key common principles It is no secret that Christianity and Judaism have presented themselves as unique and essentially untouched by an inferior and degenerate religiosity that characterized everyone else in the Mediterranean History looks different when one dispenses with such normatively heavy freight and situates the two within rather than outside of Mediterranean religion

*The Philosophy of MetaReality* Roy Bhaskar, 2013-03-01 First Published in 2012 The Philosophy of MetaReality creativity love and freedom is the third of three books elaborating Roy Bhaskar s philosophy of metaReality which appeared in rapid succession in 2002 A big rich book teaming with ideas The Philosophy of MetaReality is undoubtedly the magnum opus of Bhaskar s spiritual turn Building on a radical new analysis of the self human agency and society Roy Bhaskar shows how the world of alienation and crisis we currently inhabit is sustained by the ground state qualities of intelligence creativity love a capacity for right action and a potential for human self realisation or fulfilment A new introduction to this edition by Mervyn Hartwig founding editor of Journal of Critical Realism and editor of A Dictionary of Critical Realism Routledge 2007 describes the context significance and impact of the philosophy of metaReality and supplies an expert guide to its content This book is essential reading for students and practitioners of both philosophy and the human sciences The Hegemony of

Psychopathy Lajos Brons, 2017 Any social and political arrangement depends on acceptance If a substantial part of a people does not accept the authority of its rulers then those can only remain in power by means of force and even that use of force needs to be accepted to be effective Gramsci called this acceptance of the socio political status quo hegemony Every stable state relies primarily on hegemony as a source of control Hegemony works through the dissemination of values and beliefs that create acceptance and that serve the interests of the state and or the ruling elite the hegemonies Hegemony is most efficient if it remains invisible A key hegemonic belief is the idea that there is no alternative to the current socio political status quo or that the way things are is natural The current hegemony that is the set of values and beliefs that bolster the current socio political status quo is a hegemony of psychopathy it promotes cultural psychopathy and destroys empathy and compassion thus threatening everything that makes us human The hegemony of psychopathy is responsible for massive

human suffering It must be fought and replaced with a counter hegemonic set of values and beliefs that promote compassion and care Fighting hegemony requires fighting the pillars that support it Most important among these are the mass media and culture industry and mainstream economics The former is responsible for a continuous stream of hegemonic propaganda the latter among others for providing a pseudo scientific justification for the false belief that there is no alternative The Hegemony of Psychopathy concludes with some considerations on tactics and strategy in the struggle against the hegemony of psychopathy but does not and cannot offer any concrete advice The Hegemony of Psychopathy is a publication of Brainstorm Books a collaboration between Punctum Books and the Literature the Mind specialization at the University of California Santa Barbara *Hermeneutics and Criticism* Richard Boulton, 24-10-18 Hermeneutics and criticism explores the status of ideals in contemporary society It demonstrates how ideals have become less meaningful over time and questions the role of critical theory in their decline To unpick the relationship between hermeneutics ideals and criticism the book reengages the traditional methods of dialectic and rhetoric It challenges the claims of recent critical theory such as the ontological turn and new materialism realism that reality can be speculated upon aside from ideals The author argues that speculation on reality without ideals becomes self fulfilling the more that conceptions of reality are detached from ideals the more disaffirming those understandings of reality become Critical reengagement with ideals is imperative to give consequence to the meaning of ethics morality and discussions of what society and humanity should resemble The hermeneutic method that the book employs revitalises ideals without regressing to idealism versus realism The book reconceptualises contrast as a means to reinstate the consequences of ideals without distortion It is a vital read for those daring to challenge the status quo of critical theory whilst incorporating their relevance to the philosophy of communication

**A Thing of This World** Lee Braver, 2007-07-13 Combining conceptual rigour and clarity of prose with historical erudition this book shows how one of the standard issues of analytic philosophy realism and anti realism has also been at the heart of continental philosophy *A Precarious Happiness* Peter E. Gordon, 2024-01-02 A strikingly original account of Theodor Adorno's work as a critique animated by happiness Gordon's confidently gripping and persistently subtle interpretation brings a new tone to the debate about Adorno's negativism Jürgen Habermas Theodor Adorno is often portrayed as a totalizing negativist a scowling contrarian who looked upon modern society with despair Peter E Gordon thinks we have this wrong if Adorno is uncompromising in his critique it is because he sees in modernity an unfulfilled possibility of human flourishing In a damaged world Gordon argues all happiness is likewise damaged but not wholly absent Through a comprehensive rereading of Adorno's work *A Precarious Happiness* recovers Adorno's commitment to traces of happiness fragments of the good amid the bad Ultimately Gordon argues that social criticism while exposing falsehoods must also cast a vision for an unrealized better world [The Hedgehog Review](#) ,2001 [The Philosopher's Index](#) ,2008 Vols for 1969 include a section of abstracts **The Salisbury Review** ,2000 [Canadian Philosophical Reviews](#) ,1989 [Clio](#)

,1999 **Renegotiating and Resisting Nationalism in Twentieth-century Irish Drama** Scott Boltwood,2009 The essays in this collection seek to refine our understanding of the often polyvalent and conflicted engagement that Irish dramatists have entered into with nationalism a cultural and political movement that they have often attempted to simultaneously resist and renegotiate These nine essays construct a genealogy of dissent of loyal opposition revealing the apprehension and dissatisfaction with which the twentieth century s most influential playwrights have sometimes viewed the Irish state from its emergence in the early 1900s to its maturity at the century s end The articles on W B Yeats Augusta Gregory J M Synge and Sean O Casey reveal the early Abbey Theatre s struggle to critique the failures of and influence the development of the early state and its proscriptive brand of nationalist Irishness The essays exploring the later plays of Samuel Beckett Brian Friel Frank McGuinness Anne Devlin Christina Reid Marie Jones and Marina Carr expose both the conceptual and political failures of mainstream Irishness in the second half of the twentieth century to satisfy the material or political aspirations of people on either side of the Irish border While many of this collection s essays share a common postcolonial interpretive strategy individual articles also employ the strategies of ecocriticism social anthropology structuralism feminism and nationalist theory The fifteenth volume in the Ulster Editions and Monographs series
