Science Experiments for Kids Claudia Wilson, 2022-12. Get kids fired up about physics fun and easy science experiments for ages 10 to 13. What attracts goo to a balloon? Can you cook smores using energy from the sun? These at-home science experiments let kids get their hands dirty and find out. Created by board-certified science teacher Dr. Erica Colón, this kid-friendly physics book offers an interactive approach to fundamental concepts like electricity, heat, and sound so kids can get a jump on learning and discover just how fun physics really is. Home science experiments for smart kids includes easy-to-follow instructions that make doing these experiments as easy as riding a bike for your child. Photos showing each experiment and how to do every single one of them. Everyday science your kid will love that is suitable for all ages. The 5 steps of the scientific method every child needs to know. Ridiculously fun experiments such as the lemon volcano, elephant toothpaste, vinegar pops, and moon sand. And so much more. These fun activities use available household items to develop kids' analytical skills and critical thinking and expand their knowledge in physics, biology, chemistry, space, and technology. As kids grow up in a technology-rich world, they become more curious to learn how things work. These magical experiments teach kids that science can explain unpredictable phenomena.

Science School Tia Williams, Laura Minter, 2021-04-07. Science School teaches children about the basic principles of science through 30 exciting experiments and crafts that can be done at home using everyday objects and materials around you. Why do bubbles hold their shape? How does an electric circuit work? What makes popcorn pop? Can an egg bounce? If you thought that science could only be practised wearing white coats in a sterile laboratory, think again. A brilliant way to link the STEM/STEAM themes being taught at school back to your home in a fun and fascinating way. Perfect for budding scientists who love to ask why. Activities include making slime, baking soda fizz, coloured celery, invisible ink, soda bottle ecosystem, and many more. Designed to make science exciting and relatable to all children. The book is aimed at children aged 7-11 years old. Each project has easy-to-follow illustrated scientific information explaining how the experiment works. Teaches children about crafting skills and features simple projects aimed at parents with little or no crafting experience. Most projects can be made with items already in the house.
