*The 'Made in Germany' Champion Brands* Ugesh A. Joseph, 2016-03-09 Germany's economic miracle is a widely known phenomenon and the world leading innovative products and services associated with German companies are something that others seek to imitate. In *The Made in Germany Champion Brands* Ugesh A. Joseph provides an extensively researched insightful look at over 200 of Germany's best brands to see what they stand for, what has made them what they are today, and what might be transferable. The way Germany is branded as a nation carries across into the branding of its companies and services, particularly the global superstar brands truly world class in size, performance, and reputation. Just as important are the medium-sized and small enterprises known as the *Mittelstand*. These innovative and successful enterprises from a wide range of industries and product/service categories are amongst the World market leaders in their own niche and play a huge part in making Germany what it is today. The book also focuses on German industrial entrepreneurship and a selection of innovative and emergent stars. All these companies are supported and encouraged by a sophisticated infrastructure of facilitators, influencers, and enhancers: the research industry, trade and standards organizations, the fairs and exhibitions, and all the social and cultural factors that influence, enhance, and add positive value to the country's image. Professionals or academics interested in business entrepreneurship, branding, and marketing, product or service development, international trade, and business development policy will find fascinating insights in this book, while those with an interest in Germany from emerging industrial economies will learn something of the secrets of German success.
