A Comparative Study of Civic Education in the United States Through the Analysis of Courses of Study and Textbooks Ching-Szu Chen, 1936

Sociocultural Studies in Education Richard A Quantz, 2016-01-08 Sociocultural Studies in Education Critical Thinking for Democracy fills a void in the education of educators and citizens in a democracy It explores some of the fundamentals around which disagreements in education arise It presents a process with which those new to these debates can understand often confusing and entwined sets of facts and logics This book leads the reader through some general concepts and intellectual skills that provide the basis for making sense out of the debates around public education in a democracy This book can be seen as a primer on how to read texts about education It acknowledges that good teachers must be not only trained to teach but also educated about

education It presents the various themes and currents found within the arguments and narratives that people use to represent public education It assumes that the more those interested in education know about how to see through the rhetoric the better they will be at discerning whose interests are served by which texts General Catalogue Boston University,1917 **Catalogue** Boston University,1918 **Quarterly List of New Books** ,1914 **Congressional Record** United States.
