American Society of Civil Engineers,1917 **Economics of Design Standards for Low-volume Rural Roads** Clarkson
Hill Oglesby, M. J. Altenhofen, 1969 the objective of this study is to examine prevailing rural design standards to determine
their economic justification This would evaluate in depth the cost of some of the most significant design practices for example
roadway and shoulder width and surfacing type Resulting user benefits such as operating accident and time savings would be
weighed against the cost of individual features In addition to the analysis of the user benefit relationships the economic and
social consequences to local residents businesses and communities should be studied and a suitable means of including them
in the reckoning of warranted levels of improvement should be found Public Works Manual ,1986 **Computer**
