Teaching for Historical Literacy Matthew

T. Downey, Kelly A. Long, 2015-07-30 *Teaching for Historical Literacy* combines the elements of historical literacy into a coherent instructional framework for teachers. It identifies the role of historical literacy, analyzes its importance in the evolving educational landscape, and details the action steps necessary for teachers to implement its principles throughout a unit. These steps are drawn from the reflections of real teachers grounded in educational research and consistent with the Common Core State Standards. The instructional arc formed by authors Matthew T. Downey and Kelly A. Long takes teachers from start to finish, from managing the prior learning of students to developing their metacognition and creating synthesis at the end of a unit of study. It includes introducing topics by creating a conceptual overview, helping students collect and analyze evidence, and engaging students in multiple kinds of learning, including factual, procedural, conceptual, and metacognitive. This book is a must-have resource for teachers and students of teaching interested in improving their instructional skills, building historical literacy, and being at the forefront of the evolving field of history education.

Strickland in the continuing exploration of how real teachers incorporate differentiation principles and strategies throughout an entire instructional unit. Focusing on the high school grades but applicable at all levels, *Differentiation in Practice: Grades 9-12* will teach anyone interested in designing and implementing differentiated curriculum how to do so or how to do so more effectively. Inside you'll find annotated lesson plans for differentiated units in English, mathematics, history, science, art, and world languages. Samples of differentiated product assignments, learning contracts, rubrics, and homework handouts. An overview of the non-negotiables in differentiated classrooms and guidelines for using the book as a learning tool. An extended glossary and recommended readings for further exploration of key ideas and strategies. Each unit highlights underlying standards, delineates learning goals, and takes you step by step through the instructional process. Unit developers provide running commentary on their use of flexible grouping and pacing, tiered assignments, and assessments, and numerous other strategies. The models and insight presented will inform your own differentiation efforts and help you meet the challenge of mixed-ability classrooms with academically responsive curriculum appropriate for all learners.
