

Operation

Cleaning with your Little Green PROheat

1. Hold the tool approximately 1" above the soiled surface. Press the spray trigger to apply the cleaning solution to the soiled area.
2. Using the brush on the tool, gently scrub the area to be cleaned.
Note: If using the TurboBrush, the switch should be in the "BRUSH" position. This activates the brush only.
3. For thorough cleaning, spray additional solution while the brush and suction are in contact with the surface.
4. Apply downward pressure on the tool and pull it toward you. The suction will remove the dirt and cleaning solution. Continue until no more dirt can be removed.
Note: If using the TurboBrush, move the switch to the "SUCTION" position. This activates the suction to remove the dirt and cleaning solution. Move the switch back to the "BRUSH" position for additional brushing action.
5. As a final step, use "drying strokes" (by not pressing the spray trigger) to remove as much liquid/moisture as possible. Repeat this step as often as necessary.
Note: If using the TurboBrush, move the switch to the "SUCTION" position. This activates the suction to remove the dirt and cleaning solution.

2.

IMPORTANT:

Check the manufacturer's tag before cleaning upholstery. "W" or "WS" on the tag means you can use your Little Green. If tag is coded with an "S" (with diagonal strike-through), or says "Dry Clean Only," do not proceed. If manufacturer's tag is missing or not coded, check with your furniture dealer.

Tip:

Deep cleaning stairs and high-traffic areas on a regular basis can prolong carpet life.

Tip:

Check upholstery stuffing before cleaning. Colored stuffing may bleed through the fabric when it becomes wet.

Maintenance and care

After cleaning

1. Turn Power Switch to OFF position.
2. Unplug Power Cord from outlet.
Note: If a significant amount of Little Green formula/water remains, it is all right to leave it in the Clean/Solution Tank for your next cleaning task.
3. Empty and rinse the Dirty/Collection Tank after each use, OR when dirty water reaches the indicated maximum fill line. To remove the tank, lift up the Dirty/Collection Tank retainer lever and remove the tank from the unit.

3.

Retainer Lever
