City Guide New York Die Zeit:

Under Construction: Logics of Urbanism in the Gulf Region Steffen Wippel, Katrin Bromber, Birgit

Krawietz, 2016-02-17 Interdisciplinary in approach this volume explores and deciphers the symbolic value and iconicity of the built environment in the Arab Gulf Region its aesthetics language and performative characteristics Bringing together a range of studies by artists curators and scholars it demonstrates how Dubai appeared at least until the financial crisis to be leading the construction race and has already completed a large number of its landmark architecture and strategic facilities In contrast cities like the Qatari capital Doha still appear to be heavily under construction and in countries like the Sultanate of Oman ultra luxury tourism projects were started only recently While the construction of artificial islands theme parks and prestige sport facilities has attracted considerable attention much less is known about the region's widespread implementation of innovative infrastructure such as global container ports free zones inter island causeways and metro lines This volume argues that these endeavours are not simply part of a strategy to prepare for the post oil era for future economic survival and prosperity in the Lower Gulf region but that they are also aiming to strengthen identitarian patterns and specific national brands In doing so they exhibit similar yet remarkably diverse modes of engaging with certain global trends and present questionably distinct ideas for putting themselves on the global map Each country aims to grab attention with regard to the world wide flow of goods and capital and thus provide its own citizens with a socially acceptable trajectory for the future By doing that the countries in the Gulf are articulating a new semiotic and paradigm of urban development For the first time this volume maps these trends in their relation to architecture and infrastructure in particular by treating them as semiotics in their own right It suggests that recent developments in this region of the world not only represent

New York Vertical Horst Hamann,2001 Some people may mistakenly overlook this book because of the novelty of its central idea upending a panoramic camera to shoot New York City vertically But veteran photographer Horst Hamann's pictures have nothing gimmicky about them in fact like Berenice Abbott's they seem destined for New York City photo immortality The pictures are beautifully controlled in vision in camera technique and in printing What's more Hamann bends the city to his vision of light air and geometry A shot of the Statue of Liberty's right arm holding the lamp aloft is a masterwork of composition and care It's as if Hamann somehow arranged for the sea below to darken in precisely the same gradations as the Lady's stately arm Compare it to a dizzying picture of one of the Chrysler Building's shiny eagle heads or a serene moment among the hosta lilies in Trinity Church cemetery for a grasp of Hamann's range Each photograph is paired with a quotation on the opposite page such as Walt Whitman's The beautiful city the city of hurried and sparkling waters or former mayor James J Walker's quip I'd rather be a lamppost in New York than Mayor of Chicago The back of the book contains information on the places in the photographs On a shelf of New York books this one might take its place next to Paul Goldberger's classic The City Observed as a fresh example of how New York's stone steel and glass architectural icons are reinvented with each new visionary **"We are the Mods"** Christine Jacqueline Feldman,2009 Drawing on archival research oral history interviews and participant observation this examination of the adoption and adaptation of Mod style across geographic space also maps its various interpretations over time from the early 1960s to the present The book traces the Mod youth culture from its genesis in the dimly lit clubs of London's Soho where it began as a way for young people to reconfigure modernity after the chaos of World War II to its contemporary country specific expressions By examining Mod culture in the United States Germany and Japan alongside the United Kingdom We Are the Mods contrasts the postwar development of Mod in those countries that lost the war with those that won The book illuminates the culture's fashion music iconography and gender aesthetics to create a compelling portrait of a transnational subculture Book Jacket **American Newspaper Directory** ,1894 The Standard Periodical Directory ,1993 **The Bookseller** ,1876 *Checklist of Newspapers and Official Gazettes in the New York Public Library* New York Public Library,1915 **International Catalogue of Scientific Literature, 1901-1914** ,1902 **Memorials in Berlin and Buenos Aires** Brigitte Sion,2014-12-01 The Memorial to the Murdered Jews in Berlin inaugurated in 2005 and the Monument to the Victims of State Terrorism within the Memory Park Parque de la Memoria in Buenos Aires partially unveiled in 2007 have been controversial from start to finish While these sites differ in many respects Germany and Argentina share a history of dictatorial regimes that murdered civilians on a massive scale The Nazis implemented the genocide of millions of Jews and other minorities

during World War II In Argentina the junta led state repression was responsible for the disappearance and subsequent murder of thousands of civilians between 1976 and 1983 Decades later new governments in Germany and Argentina acknowledged the responsibility of their respective states for these mass murders by memorializing the victims with a national monument in the capital city for the first time This study of two memorials develops a model and method for analyzing the memorialization of recent tragedies that share several basic characteristics the state creates a self indicting national memorial to the victims of state sponsored mass murder in the absence of their bodies Analyzed as sites of conflicting performances and as performances themselves these memorials illuminate the ways in which people engage with them and how an architecture of absence triggers embodied memory through somatic experience While death tourism and architourism are a key to their success in attracting visitors they also pose a threat to their commemorative role Besides assessing the success and failure of these memorials Sion explores the ways in which these sites are paradigmatic and offers a model for analyzing a transnational circuit of commemorative practices *Bulletin [1908-23]* Boston Public Library,1916
