Civics Today McGraw-Hill Staff, 2002-09-01 *The Civic Mission of Museums* Anthony Pennay, 2020-12-15 Museums have long sought to maintain relevance in the daily lives of their communities Over the past several decades museums have shifted as a field from a focus on collections to a focus on connecting with audiences More recently museums must confront political polarization and a decreasing sense of trust in nearly every public institution As a result few institutions are better positioned to serve the country than museums In fact polls show that museums rank among the most trusted institutions in the country regardless of political belief During tumultuous times this trust means that museums have a unique and important responsibility to fulfill their civic mission A century ago John Cotton Dana argued that the most important thing a museum can do is produce a public benefit The Civic Mission of Museums argues that museums play an essential role in the cultivation of engaged and informed citizens The book outlines a spectrum of civic learning that includes civic knowledge civic mindset civic skillset and civic action It offers concrete examples of impactful civic programming exhibits and public engagement from a diverse set of museums It ends with a practical toolkit gleaned from across the country for museum professionals to utilize Civic Engagement in Postwar Japan Rieko Kage, 2010-12-15 Despite reduced incomes diminished opportunities for education and the psychological trauma of defeat Japan experienced a rapid rise in civic engagement in the immediate aftermath of World War II Why Civic Engagement in Postwar Japan answers this question with a new general theory of the growth in civic engagement in postwar democracies It argues that wartime mobilization unintentionally instills civic skills in the citizenry thus laying the groundwork for a postwar civic engagement boom Meanwhile legacies of prewar associational activities shape the costs of association building and information gathering thus affecting the actual extent of the postwar boom Combining original data collection rigorous statistical methods and in depth historical case analyses this book illuminates one of the keys to making postwar democracies work The American Journey Joyce Oldham Appleby, Alan Brinkley, James M. McPherson, 2003 **Flunking Democracy** Michael A. Rebell, 2018-04-18 The 2016 presidential election campaign and its aftermath have underscored worrisome trends in the present state of our democracy the extreme polarization of the electorate the dismissal of people with opposing views and the widespread acceptance and circulation of one sided and factually erroneous information Only a small proportion of those who are eligible actually vote and a declining number of citizens actively participate in local community activities In Flunking Democracy Michael A Rebell makes the case that this is not a recent problem but rather that for generations now America's schools have systematically failed to prepare students to be capable citizens Rebell analyzes the causes of this failure provides a detailed analysis of what we know about how to prepare students for productive citizenship and considers examples of best practices Rebell further argues that this civic decline is also a legal failure a gross violation of both federal and state constitutions that can only be addressed by the courts Flunking Democracy concludes with specific recommendations for how the courts can and should address this

deficiency and is essential reading for anyone interested in education the law and democratic society Prohibition Quiz Book Boyd P. Doty,1929 **National Civic Review** ,1913 *Ethnic Conflict and Civic Life* Ashutosh Varshney,2008-10-01
 What kinds of civic ties between different ethnic communities can contain or even prevent ethnic violence This book draws on new research on Hindu Muslim conflict in India to address this important question Ashutosh Varshney examines three pairs of Indian cities one city in each pair with a history of communal violence the other with a history of relative communal harmony to discern why violence between Hindus and Muslims occurs in some situations but not others His findings will be of strong interest to scholars politicians and policymakers of South Asia but the implications of his study have theoretical and practical relevance for a broad range of multiethnic societies in other areas of the world as well The book focuses on the networks of civic engagement that bring Hindu and Muslim urban communities together Strong associational forms of civic engagement such as integrated business organizations trade unions political parties and professional associations are able to control outbreaks of ethnic violence Varshney shows Vigorous and communally integrated associational life can serve as an agent of peace by restraining those including powerful politicians who would polarize Hindus and Muslims along communal lines
