

BENDIX® EVERFLOW™ MODULE

The Bendix® EverFlow™ module also provides cleaner air to the vehicle's air system. Cleaner, drier air means minimized risk of contamination in the air lines and to the accessories. In high-air-demand applications such as transit buses, refuse haulers and central tire inflation, the Bendix EverFlow module provides the clean, dry air to high-air-use accessories and air brakes that you've come to expect from Bendix air dryers.

Easy-to-find parts and service

Since each air dryer operates only half the time, replacement desiccant cartridges last longer than with a single dryer cartridge in this type of application. However, when they do need to be replaced, Bendix® AD-IP™, AD-9™ or AD-IS™ cartridges, along with any Bendix air dryer service part are always available at your nearby Bendix distributor or truck parts dealer. The EverFlow module offers the quality and reliability you expect from Bendix air dryers and it's backed by one of the most powerful warranties in the industry.

Vocations

The Bendix® EverFlow™ air dryer control module provides continuous air to applications with special air supply needs, including:

- Bulk haulers
- Transit buses
- Refuse haulers
- Central tire inflation
- Double / Triple trailer combination vehicles
- Military vehicles
- Cement mixers
