Abstract

CalWORKs family benefits program refers to a public welfare scheme that offers financial help and services to families that meet the eligibility criteria and which have children in their homes. It is based in California state in the United States of America. The program caters to the entire population of the families within the state that meets the eligibility criteria for welfare. The primary population that is targeted by the program includes families that live under the federal poverty level while they have children in the homes. The main purpose of the program is to extend the assistance of different kinds to such families ranging from financial help, employment programs, housing needs, food, and medical services among others (Mojica, 2017).

The program is affected by different policies, some of which facilitate its activities while others hamper effective operations of the program. The bottom-line of the policies is program funding. The program is jointly funded by all government levels from the federal government to the state government of

The Welfare Assembly Line Josh Seim, 2026-02-10 Despite claims that we live in a post welfare society welfare offices remain vital not only for those who depend on them for benefits but also for those who depend on them for a paycheck This book a theory driven case study of the Los Angeles County Department of Public Social Services examines how welfare work has transformed to allow a department of just 14 000 to serve more than a third of the county Josh Seim argues that frontline workers at this agency who are mostly Black and Brown women have become increasingly proletarianized Their work is defined less by their discretion and more by a lack of control over the productive process This is enabled by a welfare assembly line where a high division of labor and heavy use of machinery resemble production regimes in factories and fast food restaurants With implications beyond the welfare office The Welfare Assembly Line is a crucial addition to the broader national conversation about work social policy and poverty governance Pimping the Welfare System Kerry C.

Woodward, 2013-03-14 Based on ethnographic research in Contra Costa County California CCC Pimping the Welfare System highlights a welfare program implemented after welfare reform that differed in significant ways from the predominant work first approach implemented by most welfare programs The book argues that by imparting dominant economic social and cultural capital CCC s welfare program empowered participants and improved their quality of life and life chances Successfully transmitting these types of capital however was dependent upon the discourses practices and pedagogy deployed by welfare workers as well as the policies practices and resources of the welfare program In particular CCC s welfare workers encouraged the acquisition and use of dominant capital that which is desired by the labor market by acknowledging and respecting the various types of capital welfare participants already had and by encouraging participants to make strategic choices about deploying different types of capital This book calls into question monolithic understandings of economic social and cultural capital and encourages a new conceptualization of capital that resists framing poor women as fundamentally lacking In addition it points to ways welfare administrators and welfare workers can develop more empowering programs even within the confines of federal state and local regulations Analysis of the Budget Bill of the State of California for the Fiscal Year ... California. Legislature. Joint Legislative Budget Committee. Legislative Analyst, 2008

The American Welfare State Brian J. Glenn, 2021-11-09 Through a practical introduction to the policies of the American welfare state a wide ranging subject much discussed but seldom described this concise volume details the four main areas of social welfare policy housing assistance nutrition assistance income assistance and medical assistance In plain approachable language author Brian J Glenn explains for example how Section 8 housing vouchers function what the Supplemental Nutrition Assistance Program is how Medicare has developed and what Temporary Aid for Needy Families does Especially in the era of Covid 19 and a recession there is a need for citizens and students to understand the American social safety net The American Welfare State is written in a manner that allows a complete novice to understand these programs in a brisk and

comprehensive fashion that is both short enough to read over a couple of nights in a course and yet detailed enough for the programs to be understood at quite a nuanced level In this thoroughly updated second edition author Brian J Glenn outlines the ways in which social welfare programs differ sometimes dramatically from locality to locality To help students understand how these policies function Glenn looks at the support households receive in five cities Boston Houston Kansas City Los Angeles and New Orleans This approach provides not only a geographic spread but also an examination of the variability of support giving the reader a feel for the range of funding levels and also the variety of ways programs can be implemented In short this book is a fully updated and handy teaching and learning tool that fills a huge gap in the literature on a subject that many want to teach but often lack the resources to do
