Lombardo, 2012-12-30 This book provides a comprehensive sociological explanation for the emergence and continuation of organized crime in Chicago Tracing the roots of political corruption that afforded protection to gambling prostitution and other vice activity in Chicago and other large American cities Robert M Lombardo challenges the dominant belief that organized crime in America descended directly from the Sicilian Mafia According to this widespread alien conspiracy theory organized crime evolved in a linear fashion beginning with the Mafia in Sicily emerging in the form of the Black Hand in America s immigrant colonies and culminating in the development of the Cosa Nostra in America s urban

centers Looking beyond this Mafia paradigm this volume argues that the development of organized crime in Chicago and other large American cities was rooted in the social structure of American society Specifically Lombardo ties organized crime to the emergence of machine politics in America s urban centers From nineteenth century vice syndicates to the modern day Outfit Chicago s criminal underworld could not have existed without the blessing of those who controlled municipal county and state government These practices were not imported from Sicily Lombardo contends but were bred in the socially disorganized slums of America where elected officials routinely franchised vice and crime in exchange for money and votes This book also traces the history of the African American community s participation in traditional organized crime in Chicago and offers new perspectives on the organizational structure of the Chicago Outfit the traditional organized crime group in Chicago
