Constantinople: All Volumes Edwin Grosvenor, 2015-12-07 This is a comprehensive history of Constantinople established by Constantine the Great as a capital of the Roman Empire It subsequently became the capital of the Byzantine Empire and a focal point of politics in both Europe and the Middle East Today it is known as Istanbul but its culture and history are still widely celebrated and studied From the intro The reading world both of Europe and America has long needed a history of Constantinople which will enable one wandering through the modernities of the city to identify its hills and sites and at least measurably reconstruct it So only can it be redeemed not merely from unsentimental guide books but more particularly from the Agopes Leandros and Dimitries and the guild of couriers hungry insolent insistent and marvelously ignorant whom the landlords of Pera permit to lie around their halls and doors in lurk for unprotected travelers Such a book would be a surprise to visitors who having been led down through Galata and across the beggar haunted bridge over the Golden Horn to the Hippodrome the Janissary Museum the Treasury and Sancta Sophia are solemnly told they have seen all there is worth seeing

Constantinople Edwin Grosvenor, 2014-09-17 This is a comprehensive history of Constantinople established by Constantine the Great as a capital of the Roman Empire It subsequently became the capital of the Byzantine Empire and a focal point of politics in both Europe and the Middle East Today it is known as Istanbul but its culture and history are still widely celebrated and studied From the intro The reading world both of Europe and America has long needed a history of Constantinople which will enable one wandering through the modernities of the city to identify its hills and sites and at least measurably reconstruct it So only can it be redeemed not merely from unsentimental guide books but more particularly from the Agopes Leandros and Dimitries and the guild of couriers hungry insolent insistent and marvelously ignorant whom the landlords of Pera permit to lie around their halls and doors in lurk for unprotected travelers Such a book would be a surprise to visitors who having been led down through Galata and across the beggar haunted bridge over the Golden Horn to the Hippodrome the Janissary Museum the Treasury and Sancta Sophia are solemnly told they have seen all there is worth seeing But of the components of the reading world within the meaning of the opening reference no class would be so greatly profited by such a history as students of the East who know that under the superficies of Stamboul lie the remains of Byzantium Queen of the Propontis for whose siren splendors the Greeks forgot their more glorious Athens and the Latins in the following of Constantine actually abandoned Rome leaving it a moldy bone to be contended for by the hordes first from the North In the light of that volume an inquirer delighting in comparison will be astonished to find that the present Constantinople overlying Byzantium as the dead often overlies each other in Turkish cemeteries is yet clothed with attractions rivaled only by Rome and Cairo It were hard rendering the philosophy of the influence of history in the enhancement of interest in localities nevertheless the influence exists and has for its most remarkable feature the fact that it is generally derived from the struggles of men and nations illustrated by sufferings and extraordinary triumphs or what we commonly

term heroisms It is largely by virtue of such an influence that we have the three cities probably the most interesting of the earth Rome Constantinople and Cairo This remark is certainly very broad and exceptions might be demanded in behalf of Jerusalem and Mecca and farther still according to the impulses of pious veneration but the interest in those places it is to be observed is obviously referable to sacred incidents of one kind or another on account of which they are above the comparison Rome has first place in the mention but it is as a concession to scholars whose reading and education are permeated with Latinity and to that other section of the world yet more numerous tourists who at the foot of the Capitoline Hill or in the moon lit area of the mighty murder mill of Vespasian and Titus forget that there is an East awaiting them with attractions in endless programme None the less there are delvers inscription hunters and savants of undoubted judgment familiar with the regions along the morning shores of the Mediterranean who boldly declare themselves unconditional partisans of Constantinople And to say truth if the comparison which will be perfectly possible through the history spoken of is pursued to its end by a student really impartial he will be amazed by the discovery that all the elements which enter into his veneration for the old Rome belong not less distinctly to the later Rome

The Cambridge Edition of Early Christian Writings: Volume 4, Christ: Chalcedon and Beyond Mark DelCogliano, 2022-02-10 The Cambridge Edition of Early Christian Writings provides the definitive anthology of early Christian texts from ca 100 CE to ca 650 CE Its volumes reflect the cultural intellectual and linguistic diversity of early Christianity and are organized thematically on the topics of God Practice Christ Community Reading and Creation The series expands the pool of source material to include not only Greek and Latin writings but also Syriac and Coptic texts Additionally the series rejects a theologically normative view by juxtaposing texts that were important in antiquity but later deemed heretical with orthodox texts The translations are accompanied by introductions notes suggestions for further reading and scriptural indices The fourth volume focuses on early Christian reflection on Christ as God incarnate from ca 450 CE to the eighth century It will be an invaluable resource for students and academic researchers in early Christian studies history of Christianity theology and religious studies and late antique Roman history

A Writer's Diary Volume 2 Fyodor Dostoevsky, 1997-07-20 This is the second volume of the complete collection of writings that has been called Dostoevsky's boldest experiment with literary form it is a uniquely encyclopedic forum of fictional and nonfictional genres The Diary's radical format was matched by the extreme range of its contents In a single frame it incorporated an astonishing variety of material short stories humorous sketches reports on sensational crimes historical predictions portraits of famous people autobiographical pieces and plans for stories some of which were never written while others appeared in the Diary itself
