# CONSTITUTIONALISM, LEGITIMACY, AND POWER

NINETEENTH-CENTURY EXPERIENCES

EDITED BY  
KELLY L. GROTHKE AND MARKUS J. PRUTSCH

# Constitutionalism Legitimacy And Power Nineteenth Century Experiences

**Laurie Lanzen Harris**

## **Constitutionalism Legitimacy And Power Nineteenth Century Experiences:**

**Constitutionalism, Legitimacy, and Power** Kelly L. Grotke, Markus Josef Prutsch, 2014 If one counts the production of constitutional documents alone the nineteenth century can lay claim to being a constitutional age one in which the generation and reception of constitutional texts served as a centre of gravity around which law and politics consistently revolved This volume critically re examines the role of constitutionalism in that period in order to counter established teleological narratives that imply a consistent development from absolutism towards inclusive participatory democracy

The I.B. Tauris Handbook of the Late Ottoman Empire Hans-Lukas Kieser, Khatchig Mouradian, 2025-11-12 Drawing on contributions from fifty established and emerging academics The I B Tauris Handbook of the Late Ottoman Empire explores the scholarship that has emerged in recent decades on the Late Ottoman period and its legacies Seven chronological sections featuring thirty four chapters and eight supplementary essays guides the reader from the late eighteenth century to the early twenty first century The first two sections cover the Ottoman Empire before the 1908 Young Turk Revolution Section III addresses diachronic topics from Arab and Kurdish nationalism to missionaries and Zionism Sections IV and V examine the post 1908 period marked by the Young Turks rise specifically the Committee of Union and Progress the Great War and mass violence Section VI discusses the post Great War treaty system and its lasting impact while Section VII explores post Ottoman realities entangled with the late Ottoman legacy The volume includes two bibliographies a chronology of political events and an incisive afterword on the state of the field Surveying scholarship and its interdisciplinary dimensions and highlighting mass violence as a formative force in the region s history this handbook serves as a reference for researchers diplomats students and general readers

**Statelessness** Mira L. Siegelberg, 2020-10-06 The post WWI crisis of statelessness induced creative legal thinking as officials and jurists debated cosmopolitan citizenship beyond the borders of sovereigns But by midcentury the state won out as the lone site of citizenship Mira Siegelberg uncovers the ideological roots of this transformation and its impact on the international order

**A History of the European Restorations** Michael Broers, Ambrogio A. Caiani, 2019-11-14 Europe s Restorations were characterised by their evolving dialectics The chapters in this first volume address the key questions and controversies of Napoleonic history from a national and international perspective From the re ordering of the European world through the tools of intervention occupation and diplomacy to the creation of new constitutional monarchies across France Scandinavia and Germany the volume outlines the processes that realigned national priorities and the accompanying dynamics of social and political identity In a structure that makes sense of what Luigi Mascilli Migliorini describes as the fiendishly complex process of reconstructing order in post Napoleonic Europe this collection of essays brings together experts in the field to set a new precedent for transnational research frameworks in the study of the European Restorations

**Political Reform in the Ottoman and Russian Empires** Adrian Brisku, 2017-09-21 Throughout the long 19th century the Ottoman and Russian empires shared a goal of destroying one

another Yet they also shared a similar vision for imperial state renewal with the goal of avoiding revolution decline and isolation within Europe Adrian Brisku explores how this path of renewal and reform manifested itself forging new laws and institutions opening up the economy to the outside world and entering the European political community of imperial states Political Reform in the Ottoman and Russian Empires tackles the dilemma faced by both empires namely how to bring about meaningful change without undermining the legal political and economic status quo The book offers a unique comparison of Ottoman and Russian politics of reform and their connection to the wider European politico economic space Le conservatisme américain ,2025-07-24 Risquer l'hypothèse de l'existence d'un conservatisme américain relève de la gageure Le sujet n'a en langue française tout du moins pas connu ce jour de travaux d'envergure Cela doit beaucoup sans doute la difficulté de caractériser une notion difficile et plurielle dont la variété des acceptions témoigne la fois de sa profondeur historique comme de sa formidable capacité d'englober sous un même vocable inchangé des innovations analytiques parfois audacieuses Le présent volume s'efforce donc sans prétendre une impossible exhaustivité de présenter un panorama raisonné de l'histoire et de la nature du thème La lecture des différentes contributions de ce numéro permettra ainsi au lecteur spécialiste ou simplement curieux de se donner nous espérons quelques points de repère utiles pour appréhender une notion dont l'actualité montre qu'elle n'appartient sans doute pas qu'au passé Constitutionalism & Politics Irena

Grudzińska-Gross,1993 European and American Constitutionalism in the Eighteenth Century Michał Rozbicki,1990

*European Union--the Second Founding* Ludger Kühnhardt,2008 The author is presenting a broadly structured study about the first fifty years of European integration its geopolitical context and academic reflection His study is based on the two fold thesis that since a few years the European Union is going through a process of its Second Founding while simultaneously changing its rationale **Stanford Journal of International Law** ,2002 American Constitutional Development: The powers of government Richard S. Randall,2002 This volume examines constitutional law in a unique developmental framework that shows how key events through American history have shaped the Supreme Court's understanding of the Constitution Places unique emphasis on the political economic social and developmental aspects of the Supreme Court's constitutional decisions The book examines the great issues and events of government and politics in the early middle and modern constitutions how they have shaped the Supreme Court's understanding of the Constitution and how the distributive consequences of that understanding in turn affect American political life For those who are interested in the American constitution **Nineteenth-century Literature Criticism** Laurie Lanzen Harris,1981 Excerpts from criticism of the works of novelists poets playwrights short story writers and other creative writers who lived between 1800 and 1900 from the first published critical appraisals to current evaluations *The People Themselves:Popular Constitutionalism and Judicial Review* Larry D. Kramer,2004-06-10 The United States Constitution is the foundation of the longest and most successful democratic experiment in modern human history It serves not only as legal bedrock for the

world's most powerful nation state but also more broadly it reflects that nation's fundamental aspirations and commitments as a society. Who then has the authority to interpret a blueprint of such extraordinary influence? Americans have come to treat the Constitution as something beyond their competence, something whose meaning should be decided by judges assisted by a cadre of trained lawyers and academics. Yet this submission to a lawyerly elite is a radical and troublesome departure from what was originally the case. For America's founding generation celebrated the central role of the people in supplying government with its energy and direction. In this groundbreaking interpretation of America's founding and its concept of constitutionalism, Larry Kramer reveals how the first generations of Americans fought for and gave birth to a very different system from our current one and held a very different understanding of citizenship from that of most Americans today. Popular sovereignty was more than an empty abstraction, more than a mythic philosophical justification for government, and the idea of the people was more than a flip rhetorical gesture to be used on the campaign trail. Ordinary Americans exercised active control and sovereignty over their Constitution. The constitutionality of governmental action met with vigorous public debate in struggles whose outcomes might be greeted with celebratory feasts and bonfires or with belligerent resistance. The Constitution remained fundamentally an act of popular will, the people's charter made by the people. And it was the people themselves who were responsible for seeing that it was properly interpreted and implemented. With this book, Larry Kramer vaults to the forefront of constitutional theory and interpretation. In the process, he rekindles the original spark of *We the People*, inviting every citizen to join him in reclaiming the Constitution's legacy as in Franklin D. Roosevelt's words, a layman's instrument of government and not a lawyer's contract. **Rutgers Law Journal**, 1993

**Governance, Development and Globalization** Julio Faúndez, Mary Footer, Joseph Jude Norton, 2000 Governance and law are today firmly on the agenda of the World Bank and other international financial institutions. As the scope of the governance agenda expands, so does the need to discuss and analyse the variety of factors that should be taken into account to ensure success in the implementation of governance-related projects. This book, written by a distinguished group of lawyers and practitioners from developed and developing countries, addresses a wide range of issues related to governance both at the local and international levels. It covers topics that have long been on the governance agenda, such as judicial training, privatisation, financial sector reform, and various aspects of capacity building. It also covers many issues that have only recently become part of the development agenda, such as legal education, the politics of institution building in rural and urban communities, and the role of political parties in the establishment of democracy. It includes studies that explore the often neglected links between the structures of domestic governance and the growing number of international economic law rules in the areas of trade, investment, technology transfer, and the environment. *The Fundamentals of EU Law Revisited* Catherine Barnard, 2007 How far should the fundamental principles that shape the EU be reassessed in the light of the Constitutional Treaty's rejection? The essays in this volume examine the impact of the debate surrounding the future of the European Constitution on the development of

core areas of EU law and policy      **Progressive Governance for the XXI Century** European University Institute,2000  
Comprises papers presented at the conference Progressive Governance in the 21st Century which was attended by six world  
leaders British Prime Minister Tony Blair Brazilian President Fernando Cardoso U S President William J Clinton Italian Prime  
Minister Massimo D Alema French Prime Minister Lionel Jospin German Chancellor Gerhard Schroeder and also by Romano  
Prodi president of the European Union and Juan Somavia the Director General of the ILO Discusses the common domestic  
implications of rapid changes in world economic and social trends and the efforts of Third Way reformers to modernize the  
politics and policies of center left political parties in Europe and the United States      **Annals of Iowa** ,2000

International Ecylopedia of the Social Sciences ,1968      **The American Journal of Islamic Social Sciences** ,1996
