[The Routledge Companion to Urban Imaginaries](#) Christoph Lindner, Miriam Meissner, 2018-09-28 The Routledge Companion to Urban Imaginaries delves into examples of urban imaginaries across multiple media and geographies from new visions of smart eco and resilient cities to urban dystopias in popular culture from architectural renderings of starchitecture and luxury living to performative activism for new spatial

justice and from speculative experiments in urban planning fiction and photography to augmented urban realities in crowd mapping and mobile apps The volume brings various global perspectives together and into close dialogue to offer a broad interdisciplinary and critical overview of the current state of research on urban imaginaries Questioning the politics of urban imagination the companion gives particular attention to the role that urban imaginaries play in shaping the future of urban societies communities and built environments Throughout the companion issues of power resistance and uneven geographical development remain central Adopting a transnational perspective the volume challenges research on urban imaginaries from the perspective of globalization and postcolonial studies inviting critical reconsiderations of urbanism in its diverse current forms and definitions In the process the companion explores issues of Western centrism in urban research and design and accommodates current attempts to radically rethink urban form and experience This is an essential resource for scholars and graduate researchers in the fields of urban planning and architecture art media and cultural studies film visual and literary studies sociology and political science geography and anthropology

Photography for Architects

Martine Hamilton Knight, 2024-01-19 Shortlisted for the Architectural Book Awards 2024 We live in a world driven by images but with so much visual noise is anyone really looking How does an architect ensure their portfolio is within view of the right audience Photographs are still as vital to architectural practice as they ever were However creation and circulation once in the hands of skilled professionals is now perceived as being free and within easy reach of all But where is the clarity What is the message By setting out the case for curated image making considered photography may again be placed at the centre of architectural marketing strategies Photography for Architects guides the reader through various topics from establishing a visual brand and sharing images online to producing content in house and commissioning professionals It explores the still and moving image creating books and exhibitions for legacy value compiling award entries and engaging with trade press Little understood aspects regarding legal rights and obligations ethics copyright and licensing images for use are discussed in clear language Multiple photographic examples and conversations with international practitioners highlight the various themes throughout Written by a working architectural photographer whose life has been spent in commercial practice this easy to read richly illustrated guide is essential reading for architects and designers alike who are working with images and image makers

Visioning Technologies Graham

Cairns,2016-12-08 *Visioning Technologies* brings together a collection of texts from leading theorists to examine how architecture has been and is reframed and restructured by the visual and theoretical frameworks introduced by different technologies of sight understood to include orthographic projection perspective drawing telescopic devices photography film and computer visualization amongst others Each chapter deals with its own area and historical period of expertise organized sequentially to mark out and analyse the historical evolution of how architecture has been transformed by technologically induced shifts in human perception from the 15th century until today This book underlines the way in which architectural forms and design processes have developed historically in conjunction with the systems of sight we manufacture technologically and suggests this continues today Paradoxically it is premised on the argument that these technological systems tend in their initial formulations to obtain ever greater realism in our visualizations of the physical world

Rethinking Dwelling Jeff Malpas,2021-07-15 Over the last twenty years Jeff Malpas research has involved his engagement with architects and other academics around the issues of place architecture and landscape and particularly the way these practitioners have used the work of Martin Heidegger In *Rethinking Dwelling* Malpas primary focus is to rethink of these issues in a way that is directly informed by an understanding of place and the human relation it With essays on a range of architectural and design concerns as well as engaging with other thinkers on topics including textuality in architecture contemporary high rise construction the significance of the line the relation between building and memory and the idea of authenticity in architecture this book departs from the traditional phenomenological focus and provides students and scholars with a new ontological assessment of landscape and architecture As such it may also be used on other spatial or topographic disciplines including geography sociology anthropology and art in which the spatial turn has been so important
