Schuette, Roger W. Liska, 1994 Building Construction Estimating furnishes readers with specific details on how a general building contractor derives the cost of a project before it begins and how the estimate fits into the total construction process The book provides coverage of such areas as determining labor productivity and wages selecting equipment and assigning productivity rates and costs acquiring specialty contractor prices and assigning overhead costs and profit The material is presented from the point of view of a general contractor working on a competitively bid stipulated sum lump sum contract However other contract methods and the effects they have on the estimating process are also discussed Furthermore the

principles of estimating for the specialty trades are discussed from the reference of a general building contractor and how the subcontractor's bid will affect the total project cost is presented. Of special note is the book's introduction and utilization of computers in the estimating process enabling readers to utilize new technology in an effective and efficient manner. The book is organized in a way that first teaches the reader to perform many of the estimating activities manually then guides them in developing a computer spreadsheet. The use of spreadsheets empowers the reader to go beyond the manual calculations and develop new and more proficient solutions to estimating problems. Steel-frame House Construction

Electrical Blueprint Reading Taylor F. Winslow, 1991. Reading a blueprint is like reading a road map. It tells you exactly what you are required to build. Read it wrong and you will build it wrong and that can be expensive. This book explains how to read and interpret all types of electrical drawings and diagrams used in residential and commercial construction. There are details on electrical floor plans, lighting layouts and schematics showing single line and block or power riser diagrams for wiring circuits. Learn how to lay out an electrical project, what to look out for in dealing with construction specifications and

drawings especially in terms of today's technology how to use an engineer's scale for developing and reading site plans and how to make up and use panel board connected load and other schedules
