

# BRANDS THAT MAKE THE BEST CARS

We rank automakers from best to worst on their scores and survey results.

by JEFF S. KRAFT/CR

**How we made the rankings:** The *Consumer Reports* National Vehicle Survey is the largest survey of its kind, with more than 100,000 respondents. We use a proprietary scoring system to rank automakers based on their overall scores and survey results. The survey is conducted annually, and we update the rankings based on the latest data. The survey is conducted by a third-party research firm, and the results are published in the *Consumer Reports* magazine. The survey is conducted in the United States, and the results are published in the *Consumer Reports* magazine.

**and vehicle ownership of its automakers** can show you if the right direction when making a new car purchase. These ratings are based on the average Overall Score, a combination of our most recent quality and reliability scores, and owner satisfaction data, and reflect the

all of the models from each automaker. The top five brands this year are the same ones as 2023, with BMW leading the pack with an 87 score, followed by Subaru, the leading manufacturer brand with 85. This year, for both companies, a clear consistent combination of high

and low scores and very good predicted reliability. Porsche takes the third position with a score of 84. Both Porsche and Cadillac moved up 10 positions this year due to their improved reliability. Keep in mind that even high scoring brands can have some lower performing

models, so be sure to check the ratings for the specific car you're interested in. This is especially true for bigger brands like Ford and Toyota, which have some models that performed far better than others in our tests. (If the brand is CR ranked this year,

only recommending every model rated from above 80th, Porsche, Honda, Kia, Mazda, and Audi. Simply put, the car has no tested model from those companies with confidence. There are also brands that don't have a single model recommended by CR. Consider

carefully when buying one of those.) To be included in the overall ranking, CR has to have tested at least two current models from a company. We've tested only one model from Lexus, Polestar, and Ram, so they aren't included this year.
