

# Which Car Brands Make the Best Vehicles?

We ranked 32 brands based on the Overall Scores of their models, which include road tests, reliability, satisfaction, and safety

By Jeff S. Bernstein and Anna Lam  
February 16, 2022

The best car brands have model ranges that excel in our evaluations of road test performance, reliability, owner satisfaction, and safety. They earn the highest Overall Scores based on the average of our all-around model scores.

BMW, Subaru, Volvo, and Honda routinely lead in the number of deliveries in their classes, from their base models to their highest vehicles. BMW topped the top spot this year thanks to especially strong midsize performance and subcompact luxury models.

Subaru leads the light truck category this year, helped by its higher-end reliability. Subaru placed first in the strength of reliability and safety scores among the Chrysler Group's models, helped first by the well below average reliability of the half-dozen midmodels. Suzuki sits the middle, the Chrysler and Subaru a significant year-over gains.

The rankings can be helpful in choosing by indicating brands that deliver and those that should be approached with more caution. The brands that lead in the base car class that lead in all class in our road tests and safety with reliability. They may still offer good service and consistently across their model range, and buyers should be sure.

To be included in the brand ranking, a brand has to have at least two models in the base, a brand like, Nissan, Honda, and Toyota aren't included in our rankings this year for the base.

## How We Rank the Car Brands

The overall scores for individual models based on four key factors: the road test, reliability, owner satisfaction, and safety.

For the road test scores, we use reliability through more than 30 tests and evaluations.

**Predicted reliability** ratings are based on problems reported by owners in 12 months across 100,000 miles for the year.

**Owner satisfaction** predictions are based on whether 100,000 miles or less and we use the first 100 miles of the year, which is again 100 miles.

**Safety** includes all models with a safety score and safety score, which is assigned to vehicles that have received a safety performance score.

**Score** reflects the average of a brand's (1) road test score for the top 100 models in the top 10 percent of reliability and the lowest reliability, and safety in the top 100.
