

10 TOP PICKS

THE CARS, SUVs,
AND TRUCKS THAT
SHINE BRIGHTEST
IN OUR TESTS

NEW-CAR SHOPPERS in 2024 have more than 260 models to choose from. To help you find the right one for you, Consumer Reports selects 10 Top Picks each year, based on road-test performance, predicted reliability, owner satisfaction, and safety. (All Top Picks come standard with automatic emergency braking that works both at low speeds with pedestrian detection and at highway speeds.)

This year's pantheon of automotive excellence includes four hybrids, three plug-in hybrid electric vehicles (PHEVs), and one electric vehicle, confirming that models with fully or partially electrified powertrains can best their gas-only rivals.

Subaru and Toyota made strong showings again this year, with two and four models, respectively. These two brands consistently offer smartly engineered models with simple controls, comfortable cabins, and the infotainment and advanced safety features that matter most.

History and extensive survey analysis show that the reliability of most models improves over the time they are in production, with the last year of each generation typically being the most trouble-free, which adds to the appeal of the 2024 Subaru Forester and Toyota Camry. (Both will be redesigned for 2025.)

These Subaru and Toyota models, and the Ford Maverick Hybrid, are the only vehicles that were also Top Picks last year. The Tesla Model Y makes its debut on the list (the Model 3 was on it last year), aided by improved reliability. Making its second showing, the BMW X5 takes the top spot for luxury vehicles.

Read on to see which cars, SUVs, and trucks earn our highest honor for 2024.

BY JEFF S. BARTLETT

SUBCOMPACT SUV

✓ SUBARU CROSSTREK

Redesigned for 2024, the Crosstrek made evolutionary advancements with engine and transmission refinements, a more modern infotainment system, an optional power seat, and an improved EyeSight suite of active safety features that all heighten its appeal. At 29 mpg overall, the Crosstrek boasts the best fuel economy for a nonhybrid SUV with all-wheel drive, but, admittedly, the base 2.0-liter engine is a bit weak. The uplevel 2.5-liter engine is quicker, quieter, and more satisfying. Adding to the experience is the Crosstrek's excellent ride quality and good everyday handling. It is easy to enter, and the cabin is roomy, with supportive seats and good outward visibility. This versatile vehicle is as well-suited to urban errands as it is to weekend adventures.

HYBRID/PHEV CAR

✓ TOYOTA PRIUS/ PRIUS PRIME

The latest Prius was treated to a glow-up, bringing much sportier styling and 75 more hp than its predecessor had. The result is a sensible car that is as efficient as it was before, while going from 0 to 60 mph a significant 2.6 seconds more quickly, even with the addition of all-wheel drive. Plus, it is cooler-looking and more engaging to drive after the makeover, though some comfort elements, such as space and ride, aren't equal to the previous incarnation's, and it's much more difficult to see out of. The Prius Prime plug-in hybrid provides 39 electric-only miles, ideal for most daily chores. Once the battery is depleted, the Prime returns 43 mpg overall. Having two powertrain choices with this unique, and striking, car doubles its appeal.

COMPACT SUV

✓ SUBARU FORESTER

In its last year before a redesign, the Forester still stands tall, making its 15th appearance as a Top Pick. The winning formula includes a boxy design that maximizes interior space and grants unrivaled visibility. Access is a cinch, thanks to large doors and an elevated ride height. The seats are comfortable, room is generous, and the squared-off cargo space is capacious. The Forester is among the best-riding models in its class, and its handling is responsive and secure. This is a well-rounded small SUV that really delivers, making it easy to recommend year after year.

SMALL CAR

✓ MAZDA3

Mazda proves that small, low-priced cars don't need to be boring. In fact, the Mazda3 sedan and hatchback are highly entertaining to drive, with nimble handling and smooth powertrains. The base engine is the cost-effective choice, yet it packs 191 hp—more than most rivals—and there's a feisty 227-hp turbo-four for drivers seeking more verve. The overall feel, especially on higher trims, is more premium than the price suggests, making the Mazda3 seem a half-class above its mainstream competitors. It offers all-wheel drive with either engine, and BSX and CTXW are standard for 2024. We just wish the controls were less distracting.
