Britain's leading art historians and critics takes a fresh and timely look at this rich period in English art. The devastation of the First World War left the art world decentred and directionless. This book is about its recovery. Spalding explores how exciting new ideas co-existed with a desire for continuity and a renewed interest in the past. We see the challenge to English artists represented by Cézanne and Picasso and the role played by museums and galleries in this period. Women artists, writers and curators contributed to the emergence of a new avant-garde. The English landscape was revisited in modern terms. The 1930s marked a high point in the history of modernism in Britain but the mood darkened with the prospect of a return to war. The former advance towards abstraction and internationalism was replaced by a renewed concern with history, place, memory and a sense of belonging. Native traditions were revived in modern terms but in ways that also let in the past. Surrealism further disturbed the ascetic purity of high modernism and fed into the British love of the strange. Throughout these years the pursuit of the real was set against and sometimes merged with an inclination towards the romantic as English artists sought to respond to their subjects and their times.

*The Warm South* Robert Holland, 2018-01-01 An evocative exploration of the impact of the Mediterranean on British culture ranging from the mid-eighteenth century to today. Ever since the age of the Grand Tour in the eighteenth century the Mediterranean has had a significant pull for Britons including many painters and poets who sought from it the inspiration, beauty and fulfillment that evaded them at home. Referred to as 'Magick Land' by one traveler, dreams about the Mediterranean and responses to it went on to shape the culture of a nation. Written by one of the world's leading historians of the Mediterranean, this book charts how a new sensibility arose from British engagement with the Mediterranean, ancient and modern. Ranging from Byron's poetry to Damien Hirst's installations, Robert Holland shows that while idealized visions and aspirations often met with disillusionment and frustration, the Mediterranean also offered a notably insular society the chance to enrich itself through an imagined world of color, carnival and sensual self-discovery.

Guernica James Attlee, 2017-10-05 A brilliant, concise account of the painting often described as the most important work of art produced in the twentieth century as part of the stunning Landmark Library series. Pablo Picasso had already accepted a commission to create a work for the Spanish Republican Pavilion in 1937 when news arrived of the bombing of the undefended Basque town of Gernika. James Attlee offers an illuminating account of the genesis, creation and complex afterlife of Picasso's *Guernica*. He explores the historical and cultural context from which the painting sprang and the meanings it accrued during its travels across Europe and the Americas as well as its influence on artists both living and dead. Finally, he argues for its continuing importance as a warning of what happens when the forces of darkness go unchallenged. Praise for *Guernica*: 'Helps you appreciate *Guernica*'s daring and resonance' *Literary Review*. An impressive overview of the painting's conception and execution and its subsequent life as an exhibit and a symbol. Attlee's book succeeds in showing how influential *Guernica* has been. *Sunday Times*. Attlee digs up rich examples of the debate and devotion that invariably attended the painting. *Guernica* literature abounds but this book is a worthwhile addition. *Spectator*. **Exhibiting the Past** Frederik
