

# BRANDS THAT MAKE THE BEST CARS

We rank automakers from best to worst on their scores and survey results.

by JEFF S. KRAVITZ

**How we made the rankings:** The Report based its automaker ranking on four key factors: (1) our tests, including owner satisfaction and safety; (2) the national survey we sent out twice through more than 30,000 CR members; (3) ratings on problems reported by members; and (4) our latest survey of CR's Active View for cars. Based on this data, automakers are ranked on an A+ to D+ scale, and in our survey that includes the most common type of vehicle choice, safety, reliability, and value. Scores are based on the number of problems reported, and the total number of problems reported. The number of problems reported is based on the number of problems reported by members. The number of problems reported is based on the number of problems reported by members.

**and vehicle ownership of its automakers** can show you if the right vehicle when making a new car purchase. These ratings are based on the average Overall Score, a combination of our most recent reliability, safety, and owner satisfaction data, and reflect the

all of the models from each automaker. The top five brands this year are the same ones as 2023, with BMW leading the pack with an 87 score, followed by Subaru (85), Porsche (84), Honda (78), and Lexus (78). This year, for both companies, a clear consistent combination of high

and low scores and very good predicted reliability. Porsche takes the third position with a score of 84. Both Porsche and Cadillac moved up 10 positions this year due to their improved reliability. Keep in mind that even high scoring brands can have some lower performing

models, so be sure to check the ratings (see page 46) for the auto you're interested in. This is especially true for bigger brands like Ford and Toyota, which have some models that performed far better than others in our tests. (If the brands CR ranked this year

were recommending every model rated from worst (BMW, Porsche, Honda, Kia, Mazda, and Audi) Single pick: You can buy and feel more from those companies with confidence. (There are also brands that don't have a single model recommended by CR, including

carefully when buying one of those.) To be included in the overall ranking, CR has to have tested at least two current models from a company. We've tested only one model from Lexus, Polestar, and Ram, so they aren't included this year.
