1. In the movie, the director does "feature" shots of several families that may have been related to the transmission of the virus in order to call your attention to them. Name at least 3 of them.

Tobias, Koby, Polina's hotel, hotel purchasing equipment (linens etc), swimming, bus call, train, elevator buttons, glasses, airplane toilet (and more)

2. What does CDC stand for, and what role did they play in the movie?

Centers for Disease Control - they help figure out how to make the vaccine

3. What does WHO stand for, and what role did they play in the movie?

World Health Organization - they help track the spread of the epidemic

4. The MERS virus structure was found to be related to what animals?

Big Bats

5. Why do you think this may be a significant finding?

to show the possible source of the original infection

6. The funeral home refuses to perform services for the disease related to the virus. Do you think this would happen in real life? Explain why/why not?

Should compare to a real life situation such as lack of knowledge about who patients and them being refused services for fear on contracting the disease.

7. The homeopathic modification Nasykka is thought to be the "miracle" cure for the virus. What happens when this is tested in the movie?

A. Just breaks out and people get aggressive in order to obtain it.

8. How do you think this behavior compared to when Chris looked at the drug of choice for Anthrax?

Similar desire but more easily acceptable behavior was seen.

9. What role do you think the Practical Nurse would play in this situation if it happened in real life?

Caring for ill and isolated patients, reporting information to the CDC, giving vaccines

10. Does this movie make you feel any differently about hand-washing and disinfecting surfaces? Why/why not?

Steadier epidemic only - instead full police if answer is complete

**Macro-Prudential Stress Test Models: A Survey** David Aikman,Daniel Beale,Adam Brinley-Codd,Anne-Caroline Hüser,Giovanni Covi,Caterina Lepore,2023-08-25 In this paper we survey the rapidly developing literature on macroprudential stress testing models The scope of the survey includes models of contagion between banks models of contagion within the wider financial system including non bank financial institutions such as investment funds and models that emphasise the two way interaction between the financial sector and the real economy Our aim is two fold first to provide a reference guide of the state of the art for those developing such models second to distil insights from this endeavour for policy makers using these models In our view the modelling frontier faces three main challenges a our understanding of the potential for amplification in sectors of the non bank financial system during periods of stress b multi sectoral models of the non bank financial system to analyse the behaviour of the overall demand and supply of liquidity under stress and c stress testing models that incorporate comprehensive two way interactions between the financial system and the real economy Emerging lessons for policy makers are that for a given sized shock hitting the system its eventual impact will depend on a the size of financial institutions capital and liquidity buffers b the liquidation strategies financial institutions adopt when they need to raise cash and c the topology of the financial network
