Class 1 Punjab Text Board:

Delusional States Nosheen Ali, 2019-09-19 Offers a pioneering study of state making religion and development in contemporary Pakistan and its northern frontier

CURRICULUM REFORM IN PAKISTAN Amna Afreen, 2022-02-25 I have written this book in an effort to explore how the history of Pakistan has resulted in the critical problems weighing down its education system The book examines the questions Why and how has a small elite class come to rule Pakistan And how has their rule worsened the country's problems The focus will be to critically examine the elements of the Pakistani national curriculum and madrasas and their effects on Pakistani society The book represents the fusion of my experiences in Pakistan with extensive literature analysis interviews and textbook analysis This research began when I came to the United States in January 2015 through the SAR program I wanted to know the answers to profoundly unsettling questions How can a society be so intolerant that a scholar educated solely in Pakistan is disregarded and assassinated while many Western educated scholars with traditional insular thoughts are not only appreciated but flourishing I wanted to know why Pakistani elites have so much power and freedom while lower classes are profoundly oppressed Elites who barely pay taxes have been in power for generations while those that pay taxes suffer from sky high inflation The influential religious leaders mostly belong to the elite class while their followers are mostly lower class Ruling families and social classes mostly control appointed positions Do those in power not have a responsibility to speak on issues of social justice rather than limiting themselves in claiming that theirs is the only true form of Islam Why don't they work to end the disparity of quality education between classes in Pakistan Instead many elites run their own lucrative elite Islamic schools More importantly why do the ulama which literally means those who possess knowledge particularly of Islam maintain a tight hierarchical system in the madrasa Islamic seminary community that rarely allows poor intelligent students to attain leadership positions Why are the ulama silent in the face of ruthless murder of and discrimination against Pakistani minorities Book Review Pakistan Educational Reforms is a major study of education in Pakistan and its national and madrasa curriculum that fosters national and religious sectarian divisions intolerance and conflicts Dr Amna Afreen documents the political socio economic and religious causes limited government funding widespread poverty and illiteracy and the poor training and performance of teachers that have produced a failed educational system at urban and rural government and religious schools madrasa and offers a series of potential solutions and reforms John L Esposito University Professor and Founding Director of The Alwaleed Center for Muslim Christian Understanding Georgetown University

A comparative study of elite English-medium schools, public schools, and Islamic madaris in contemporary Pakistan Akhtar Hassan Malik, 2015-04-12 This ethnographic study examines the role of differing school knowledge in reproducing various social classes in the society It was observed that an unequal availability of capital resources agents class habitus and the type of their cultural currency act as selection mechanisms that clearly favour some social groups over others The ruling classes ensure the transfer of their power and privilege to their children by

providing them with quality education in elite schools The disadvantaged classes are excluded from these unique institutions by both social and economic sanctions They have no other option than to educate their children either in public schools or Islamic madaris As a result inequitable educational opportunities consolidate the existing social class hierarchy

Revenge and Reconciliation Rajmohan Gandhi, 2000-10-14 An original provocative and compelling reading of the subcontinent's history In this remarkable study well known biographer Rajmohan Gandhi underscoring the prominence in the Mahabharata of the revenge impulse follows its trajectory in South Asian history Side by side he traces the role played by reconcilers up to present times like the Buddha Mahavira and Asoka Encompassing myth and historical fact the author moves from the circumstances of Drona's death and Parasurama's slaying of the Kshatriyas to the burst of Islam in India and Akbar's success in gaining acceptance for it the executions of Guru Arjan Dev and Guru Tegh Bahadur and Shivaji's achievement of self rule His explanation of the 1947 division of India identifies the role of the 1857 Rebellion in shaping Gandhi's thinking and strategy and reflects on the wounds of Partition The survey of post Independence India Pakistan Bangladesh and Sri Lanka also touches upon the tragic bereavements of six of their women leaders Incisive and finely argued Revenge and Reconciliation compels us to confront historical and contemporary realities of intolerance while pointing to possible strategies of mutual accommodation in India and the rest of South Asia at the threshold of the twenty first century

World Yearbook of Education 2011 Lyn Yates, Madeleine Grumet, 2011-02-01 How do curriculum conceptions of knowledge and the schooling experiences of young people engage the great issues of this tumultuous time Curriculum is always influenced by the events that shape our world but when testing and benchmarking preoccupy us we can forget the world that is both the foundation and the object of curriculum This edited volume brings together international contributors to analyze and reflect on the way the events of the last decade have influenced the curriculum in their countries As they address nationalism in the face of economic globalisation the international financial crisis immigration and the culture of diaspora they ask how national loyalties are balanced with international relationships and interests They ask how the rights of women and of ethnic and racial groups are represented They ask what has changed about history and civics post 9 11 and they ask how countries that have experienced profound political and economic changes have addressed them in curriculum These interactions and changes are a subject of particular interest for an international yearbook in that they are almost always permeated by global movements and influenced by multinational bodies and practices And as these essays show in curriculum global and international issues are explicitly or implicitly also about local and national interests and about how citizens engage their rights and responsibilities This volume brings together a new approach to perspectives on curriculum today and a new collection of insights into the changes from different parts of the world which discuss How is the world represented in curriculum How do responses to world events shape the stories we tell students about who they are and can be This book will be of great benefit to educational researchers and policy makers as well as undergraduate and postgraduate students
