Let's discuss

Question 2:

What is the problem with the periodisation of Indian history that James Mill offers?

Answer 2:

- Although Hinduism is the religion of most of the Indians but Muslims had been living in India from much earlier than beginning of the Islamic rule in India. Even during the peak of the Mughal Empire, there were many territories which were ruled by Hindu kings.
- James Mill divided history on the basis of religion of the rulers of the times. However, a variety of faiths existed simultaneously in these periods.
- Mill, through his periodization suggested that British rule could civilize India. He thought that British should conquer all the territories in India to ensure the enlightenment as if India was not capable of progress without British coordination.

Question 3:

Why did the British preserve official documents?

Answer 3:

Official records of the British administration serve as important source of history of this period. The British rulers believed that every instruction, plan, policy, decision, agreement, investigation should be clearly written up. This was necessary for proper study and debate about an issue. Hence, they carefully preserved all official records and created several archives for the purpose.

Class 8 Social Science Guide Ncert History:

(Re)Constructing Memory: Textbooks, Identity, Nation, and State James H. Williams, Wendy D.

Bokhorst-Heng, 2016-07-08 This book engages readers in thirteen conversations presented by authors from around the world regarding the role that textbooks play in helping readers imagine membership in the nation. Authors' voices come from a variety of contexts: some historical, some contemporary, some providing analyses over time. But they all consider the changing portrayal of diversity, belonging and exclusion in multiethnic and diverse societies where silenced, invisible, marginalized members have struggled to make their voices heard and to have their identities incorporated into the national narrative. The authors discuss portrayals of past exclusions around religion, ethnicity, sexual orientation as they look at the shifting boundaries of insider and outsider. This book is thus about who we are, not only demographically but also in terms of the past, especially how and whether we teach discredited pasts through textbooks. The concluding chapters provide ways forward in thinking about what can be done to promote curricula that are more inclusive, critical and positively bonding in increasingly larger and more inclusive contexts.
