

DIVE THEORY STUDY GUIDE

Guidelines for studying:

Study each area in order as the theory from one subject is used to build upon the theory in the next subject.

When you have completed a subject, take tests and exams in that subject to make sure you understand everything before moving on.

If you try to jump around or don't completely understand something, this can lead to gaps in your knowledge.

You need to apply the knowledge in earlier sections to understand the concepts in later sections...

If you study this way you will retain all of the information and you will have no problems with any PADI dive theory exams you may take in the future.

Before completing the section on decompression theory and the RDP make sure you are thoroughly familiar with the RDP, both Wheel and table versions. Use the appropriate instructions for use guides which come with the product.
