

Common Standard: **Scientific Practices with Practice Matrix**

As we go over this matrix, I'd want to ensure students understand:
(a) the meaning of the word "consensus"

specifically that a group consensus means that everyone would not join the group.

1. How did the group's consensus affect the final group's proposed hypothesis?
2. How did the group's consensus affect the final group's proposed hypothesis?

3. How did the group's consensus affect the final group's proposed hypothesis?
4. How did the group's consensus affect the final group's proposed hypothesis?

During groupwork, students are asked to discuss and agree on a group consensus.
Consensus means:

1. How did the group's consensus affect the final group's proposed hypothesis?
2. How did the group's consensus affect the final group's proposed hypothesis?

3. How did the group's consensus affect the final group's proposed hypothesis?
4. How did the group's consensus affect the final group's proposed hypothesis?

The consensus is the group's agreement on a hypothesis to test.

As we go over this page, I'd want to ensure students understand:
consensus means that everyone would not join the group.
