

## Chapter 18: Viruses and Bacteria

### Viruses

- Composed of nucleic acids in a protein coat
  - Nucleic acid can be DNA or RNA and only contains information on how to reproduce the virus
  - Capsid: outer protein coat
  - Sometimes has an envelope on the outside made up of phospholipids
- 4 different shapes

**Figure 18.11**  
The following structures show viruses and their capsids in different shapes.

**Figure 18.12**  
The following virus structure shows a virus with a helical capsid.

**Figure 18.13**  
The following virus structure shows a virus with a tail and a tail sheath.

**Figure 18.14**  
The following virus structure shows a virus with a tail and a tail sheath.

## Chapter 18 Viruses Bacteria Study Guide Answers:

**Critical Care Study Guide** Gerard J. Criner, Gilbert E. D'Alonzo, 2013-03-09 Critical care medicine is a dynamic and exciting arena where complex pathophysiologic states requiring extensive knowledge and clinical acumen are commonly found. Caring for critically ill patients requires an extensive knowledge of basic pathophysiology as well as awareness of the appropriate diagnostic tests and therapeutic interventions. Because this knowledge base crosses many different disciplines, introduction to caring for the intensive care patient while exciting may also be intimidating. This textbook is designed toward making the dynamic environment of the critical care unit understandable and the approach to the patient both logical and successful. The book contains three components: 1. description of the procedural tasks commonly performed for the critically ill patient; 2. explanation of the most common pathophysiologic states encountered; and 3. description of specific disease entities with details of their differential diagnosis, diagnostic strategy, and therapeutic plan. This book also uses several educational approaches that we have found useful in our own teaching sessions and prior textbooks. Clinical cases introduce chapters and highlight chapter segments to emphasize clinical relevancy. As an additional study aid, margin notes highlight important teaching points and facilitate easy review of chapter content. To consolidate the principles outlined in each chapter, review questions with full text explanations are provided at the end of each chapter. All these elements help reinforce the most important messages for the reader. [Study Guide for Gould's Pathophysiology for the Health Professions - E-Book](#)

Robert J. Hubert, Karin C. VanMeter, 2017-11-28 Master key pathophysiology concepts and apply them to the practice setting. Corresponding to the chapters in Gould's Pathophysiology for the Health Professions 6th edition, this study guide offers a wide range of engaging activities to reinforce your understanding and practice your skills. To make studying easier, an answer key is included in the back of the book. UPDATED chapters reflect the text's logical systematic approach. Learning activities provide a variety of ways to assess your knowledge or identify areas for further study, including labeling exercises, matching exercises on important terminology, application questions that apply to more complex situations, crossword puzzles, and compare/contrast completion charts. The answer key for all of the activities is provided at the end of the study guide.

*Student Study Guide for Biology [by] Campbell/Reece* Martha R. Taylor, 2002. Marty Taylor, Cornell University. Provides a concept map of each chapter, chapter summaries, a variety of interactive questions, and chapter tests. **Study Guide for 31840 - Biology-First Edition** Neil A. Campbell, 1987. *Study Guide to Accompany Contemporary Medical-surgical Nursing* Rick Daniels (Associate professor), 2007. **Student Guide for Cycles of Life** Gerald L. Kellogg, 2006. *Student Study Guide for Campbell's Biology Second Edition* Martha R. Taylor, 1990. [Telecourse Cycles of Life](#) Gerald L. Kellogg, Starr, 1999-07. This guide provides students with a road map through the telecourse and contains assignments for reading, viewing, and doing related activities, plus overviews of the content of each lesson and the accompanying video program. For information about bundling it with any Starr textbook, contact your Cengage Learning representative. **Study**

**Guide to Accompany the Microbial Perspective** Frank Whitehouse,1982      *Study Guide* Johnson,Judith Stewart,2000-12  
Designed specifically for the one semester human biology course Contains traditional chapter review and self testing activities

**Student Study Guide to Accompany Human Biology** Sylvia S. Mader,2003-08 This best selling text emphasizes the relationship between humans and other living things Intended for an introductory course this text provides students with a firm grasp of how their bodies function and how the human population can become more fully integrated into the biosphere An Online Learning Center tied directly to the text via icons will direct students to activities or animations that gives a visual example of difficult processes as well as Working Together boxes to emphasize homeostasis      *Study Guide, Student Edition, for Use with Glencoe Life Science* McGraw Hill,1998-05      *Study Guide to Accompany Raven and Johnson Biology* David A. Stetler,1986      *Study Guide for Man, Nature, and Society* Theodore W. Pohrte,L. Jack Pierce,1975
