## Add/Edit Experience

[Help](#) ⓘ

Enter the number of hours you have spent working in each domain area. This will count toward the hours of experience needed for the eligibility requirement.

### DOMAIN AREAS

#### Initiating the Project

Defining the project scope and obtaining approval from stakeholders. For example: Perform project assessment; define the high-level scope of the project; perform key stakeholder analysis; identify and document high-level risks, assumptions, and constraints; develop and obtain approval for the project charter.

#### Planning the Project

Preparing the project plan and developing the work breakdown structure (WBS). For example: Assess detailed project requirements, constraints, and assumptions with stakeholders; create the work breakdown structure; develop a project schedule; develop budget, human resource management, communication, procurement, quality management, change management, and risk management plans; present the project plan to the key stakeholders; conduct a kick-off meeting.

#### Executing the Project

Performing the work necessary to achieve the stated objectives of the project. For example: Obtain and manage project resources; execute the tasks as defined in the project plan; implement the quality management plan; implement approved changes according to the change management plan; implement approved actions by following the risk management plan; maximize team performance.

#### Controlling and Monitoring the Project

Monitoring project progress, managing change and risk, and communicating project status. For example: Measure project performance using appropriate tools and techniques; manage changes to the project scope, schedule, and costs; ensure that project deliverables conform to the quality standards; update the risk register and risk response plan; assess corrective actions on the issue register; communicate project status to stakeholders.

#### Closing the Project

Finalizing all project activities, archiving documents, obtaining acceptance for deliverables, and communicating project closure. For example: Obtain final acceptance of the project deliverables; transfer the ownership of deliverables; obtain financial, legal, and administrative closure; distribute the final project report; collate lessons learned; archive project documents and materials; measure customer satisfaction.
