

Adjustable Feet

Each of the VS Series models, except VS 344, is equipped with adjustable feet that lets you change the vertical angle of the speaker to suit your installation.

The VS speakers are supplied with an open-ended wrench and a flex wrench to set the position of the adjustable feet. Put the flex wrench in the hole in the bottom of the adjustable foot. Put the open ended wrench around the recesses in the base of the cap. Turn the wrenches to set the position of the foot.

The VS 336 and VS 344 are supplied with carpet spikes. If the speakers are placed on a carpeted floor, replace the feet with the carpet spikes. This provides additional stability and coupling for the speaker. Care should be used with the carpet spikes to avoid damage to the floor or injury.

Wall-Mounting

The VS 240, VS 224, and VS 325C can be wall-mounted using the supplied mounting bracket. Use the supplied hex wrench to remove the foot mounting screw and the foot. Then install the threaded mounting posts in the back of the cabinet.

Fasten the mounting plate to the wall with appropriate hardware. See the Note below. Be sure it is level. Connect the speakers. Insert the heads of the mounting posts through the keyhole openings in the mounting plate. Lower the speaker to seat the mounting posts in the mounting plate. When the speaker is positioned horizontally the vertically positioned keyhole openings are used.

NOTE: The customer is responsible for the correct selection and use of mounting hardware (available through hardware stores) that will ensure the proper and safe wall-mounting of the speakers.
