Parliamentary Debates (Hansard). Great Britain. Parliament. House of Commons, 2010 *Math Education for America?* Mark Wolfmeyer, 2013-12-04 Math Education for America analyzes math education policy through the social network of individuals and private and public organizations that influence it in the United States The effort to standardize a national mathematics curriculum for public schools in the U S culminated in 2010 when over 40 states adopted the Common Core State Standards for Mathematics Rather than looking at the text of specific policy documents this book complements existing critical reviews of the national math education curriculum by employing a unique social network analysis Breaking new ground in detailing and theorizing the politics of math education Wolfmeyer argues that the private interests of this network are closely tied to a web of interrelated developments human capital education policy debates over traditional and reform pedagogy the assumed content knowledge deficit of math teachers and the proliferation of profit driven educational businesses By establishing the interconnectedness of these interests with the national math education curriculum he shows how the purported goals of math education reform are aligned with the prevailing political agendas of this social network rather than the national interest **The Palgrave International Handbook of Higher Education Policy and Governance** Jeroen Huisman, Harry de Boer, David D. Dill, Manuel Souto-Otero, 2016-04-29 This state of the art reference collection addresses the major themes theories and key concepts related to higher education policy and governance on an international scale in one accessible volume Mapping the field and showcasing current research and theorizations from diverse perspectives and authoritative scholars this essential guide will assist readers in navigating the myriad concepts and themes involved in higher education policy and governance research and practice Split into two sections the first explores a range of policy concepts theories and methods including governance models policy instruments institutionalism and organizational change new public management and multi level governance The second section addresses salient themes such as institutional governance funding quality employability accountability university rankings widening participation gender inequalities technology student involvement and the role of higher education in society Global in its perspective and definitive in content this one stop volume will be an indispensable reference resource for a wide range of academics students and researchers in the fields of education education policy sociology social and public policy political science and for leadership *Education under Siege* Mortimore, Peter, 2013-09-23 At a time when education is considered crucial to a country's economic success recent UK governments have insisted their reforms are the only way to make England's system world class Yet pupils are tested rather than educated teachers bullied rather than trusted and parents cast as winners or losers in a gamble for school places Education under siege considers the English education system as it is and as it might be In a highly accessible style Peter Mortimore an author with wide experience of the education sector both in the UK and abroad identifies the current system's strengths and weaknesses He concludes that England has some of the best teachers in

the world but one of the most muddled systems Challenging the government's view that there is no alternative he proposes radical changes to help all schools become good schools They include a system of schools receiving a fair balance of pupils who learn easily and those who do not ensuring a more even spread of effective teachers as well as banning league tables outlawing selection opening up faith schools and integrating private schools into the state system In the final chapter he asks readers who share his concerns to demand that the politicians alter course The book will appeal to parents education students and teachers as well as everyone interested in the future education of our children *The Times Index*, 2011
