Chemistry for Advanced Level Course Ted Lister, Janet Renshaw, 2000 This course study guide is designed to complement New Understanding Chemistry for Advanced Level but it can be used with any other core textbook for AS and A Level Chemistry as well. It aims to help further develop chemistry skills such as laboratory techniques, mathematical methods and data handling. The course study guide also provides outline solutions to a selection of questions and gives advice on answering all types of examination questions and support for Key Skills.

Learning to Teach Science in the Secondary School Jenny Frost, Tony Turner, 2005 The second edition of this popular student textbook presents an up to date and comprehensive introduction to the process and practice of teaching and learning science. It takes into account changes in science education since the first edition was published including more recent curriculum reform. This new edition builds upon the success of its predecessor introducing new material on the use of ICT in science teaching as well as providing sound informative and useful discussion on managing your professional development, knowledge, concepts and principles of science planning for learning and teaching in science, practical teaching strategies, selecting and using resources, assessment and examinations and the broader science curriculum.

Learning to Teach Science in the Secondary School Rob Toplis, Jenny Frost, 2004-07-15 The second edition of this popular student textbook presents an up to date and comprehensive introduction to the process and practice of teaching and learning science in the secondary school.
