Natural Hazard - [Answer>>](#) A naturally occurring process or event that has the potential to effect people.

Natural Disaster - [Answer>>](#) A major natural hazard that causes significant social, economic and environmental change.

Vulnerability - [Answer>>](#) The ability to anticipate, cope with, resist and recover from a natural hazard.

Resilience - [Answer>>](#) The ability to bounce back after a natural hazard.

When does a natural hazard become a natural disaster. -  
[Answer>>](#) A disaster occurs when a hazard strikes a vulnerable population that cannot cope with the impacts using its own resources. The scale of the disaster will depend on two factors:

1. The magnitude of the disaster
2. The vulnerability of the population

Degg's model - [Answer>>](#) A good way of portraying the magnitude of the disaster and the vulnerability of the population and how they interrelate. The greater the overlap the bigger the disaster will be.

Physical causes of Haiti earthquake natural disaster -  
[Answer>>](#) - Haiti sits on a fault line between North America and Caribbean plates

- Earthquake of magnitude 7.0 near the capital.
- Liquefaction on looser soil can make foundations unstable and collapse.

more serviceable to others if it is presented in such a manner that its relations to the whole subject are made clear Not only so we may often benefit ourselves by systematically setting forth the place of our individual studies in geography as a whole for we may be thereby led to discover that the systematic sequence of parts is interrupted here and there by gaps which can be filled by well directed effort But it is manifest that if we should attempt to make exposition of our ideas concerning the relation of our own studies to the whole subject we must have previously gained a tolerably definite idea of the nature of the whole Very likely we each have some such conception If so it would be profitable to institute a collection and a comparison of opinions though it can hardly be doubted that they would show much diversity Examples of Geographical Statements As a contribution towards such a collection of opinions I propose to consider the nature or content of geography in this essay but instead of presenting an abstract definition of the subject the problem will be regarded from the other side About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
