Karl Barth

Community State And Church:

Community, State, and Church Karl Barth, 2004-10-05 Karl Barth was the master theologian of our age Whenever men in the past generation have reflected deeply on the ultimate problems of life and faith they have done so in a way that bears the mark of the intellectual revolution let loose by this Swiss thinker But his life was not simply one of quiet reflection and scholarship He was obliged to do his thinking and writing in one of the stormiest periods of history and he always attempted to speak to the problems and concerns of the time In June 1933 he emerged as the theologian of the Confessional movement which was attempting to preserve the integrity of the Evangelical Church in Germany against corruption from within and terror from without His leadership in this struggle against Nazism also made it necessary for him to say something about the totalitarianism that the Soviet power was clamping down upon a large part of Europe In this indirect way a Barthian social philosophy emerged and this theologian who abjured apologetics and desired nothing but to expound the Word of God was compelled by circumstances to propound views on society and the state that make him one of the most influential social thinkers of our time David Haddorff is Associate Professor of Theology and Religious Studies at St John s University New York He is the author of several articles and reviews and the book *Dependence and Freedom The Moral Thought of Horace Bushnell* 1994 Table of Contents Introduction by David Haddorff Karl Barth s Theological Politics 1 Gospel and Law 71 Church and State 101 The Christian Community and the Civil Community 149 Bibliography 191

Troubling Topics, Sacred Texts Roberta Sterman Sabbath, 2021-10-04 Abrahamic scriptures serve as cultural pharmakon prescribing what can act as both poison and remedy This collection shows that their sometimes veiled but eternally powerful polemics can both destroy and build exclude and include and serve as the ultimate justification for cruelty or compassion Here scholars not only excavate these works for their formative and continuing cultural impact on communities identities and belief systems they select some of the most troubling topics that global communities continue to navigate Their analysis of both texts and their reception help explain how these texts promote norms and build collective identities Rejecting the notion of the sacred realm as separate from the mundane realm and beyond critical challenge this collection argues both implicitly and sometimes transparently for the presence of the sacred within everyday life and open to challenge The very rituals prayers and traditions that are deemed sacred interweave into our cultural systems in infinite ways Together these authors explore the dynamic nature of everyday life and the often brutal power of these texts over everyday meaning

Theories of Justice Stephanie Mar Brettmann, 2014-12-02 What is justice How do we know justice

How is justice cultivated in society These are the three questions that guide this critical dialogue with two representatives of the Catholic and Protestant traditions Karl Barth and Karol Wojtyla John Paul II Though the two thought leaders are shaped within divergent theological traditions and historical contexts they both appeal to Christian anthropology as a starting point for justice Their explorations into the nature of humanity yield robust new theories of justice that remain relevant for our contemporary era The third interlocutor our female author brings her own voice fully into the dialogue in the third part of the book in order to address the shortcomings in their theories and build upon their insights all the while seeking theories of humanity and social justice that result in justice for all persons

Theo-Politics? Markus Höfner,2021-10-25 Using the theological work of Karl Barth as a resource for present day inquiry the contributors in this volume discuss the complex interconnections between the religious and the political designated by the term theo politics Speaking from various political and cultural contexts Germany the United Kingdom the United States Hong Kong Taiwan and the People s Republic of China and different disciplinary perspectives Protestant Theology Political Sciences and Sociology the contributors address contemporary challenges in relating the religious and the political in Western and Asian societies Topics analyzed include the impact of diverse cultural backgrounds on given theo political arrangements theological assessments of political power the political significance of individual and communal Christian existence and the place of Christian communities in civil societies In their nuanced discussions of these topics the contributors neither advocate for a privatized apolitical understanding of the Christian faith nor for a religious politics seeking to overcome modern processes of differentiation and secularization Critically engaging Barth s theology they examine the Christian responsibility in and for the political sphere and reflect on the practice of such responsibility in Western and Asian contexts

Dogmatics III Emil Brunner,2025-04-24 One of the great twentieth century works of theology Emil Brunner s Dogmatics series presents a profoundly biblical systematic theology Finding a path between Barth and Bultmann Brunner explores key doctrines such as the doctrine of God creation and redemption and the doctrine of the church and of faith These foundational texts from a leading theologian of the 20th century are crucial for scholars and students illuminating how modern Protestant theology was formed in the last century The first volume serves as an introduction to Brunner s view of dogmatics setting out the nature position and necessity of dogmatics before exploring the many facets of the doctrine of God In detailed vigorous explanation Brunner considers the nature and will of God including his name his holiness his wisdom and his glory Thorough insightful and extensive this first volume is an illuminating beginning to this series The second volume explores the fundamental concepts of the protestant doctrine from creation and the creator to man s position within creation sin and its consequences and the saving work of Jesus Brunner explores all of the possibilities of these fundamentals and his detailed thoughtful arguments are designed as he says to set us free to have a faith which is based on nothing save the Love of God revealed in Jesus Christ The third and final volume

focusses on the theology of the Church as a reflection of God's self-revelation through the Holy Spirit and an eternal consummation of Divine self-communication. Drawing together the understanding gleaned in the previous two volumes, Brunner addresses the nature of the church and faith to bring his systematic biblical theology into the experiences of his readers.

Routledge Handbook on the Governance of Religious Diversity Anna Triandafyllidou, Tina Magazzini, 2020-12-30

This book critically reviews state religion models and the ways in which different countries manage religious diversity, illuminating different responses to the challenges encountered in accommodating both majorities and minorities. The country cases encompass eight world regions and 23 countries, offering a wealth of research material suitable to support comparative research. Each case is analysed in depth, looking at historical trends, current practices, policies, legal norms, and institutions. By looking into state religion relations and governance of religious diversity in regions beyond Europe, we gain insights into predominantly Muslim countries (Egypt, Morocco, Tunisia, Turkey, Indonesia, Malaysia), countries with pronounced historical religious diversity (India and Lebanon), and into a predominantly migrant pluralist nation (Australia). These insights can provide a basis for rethinking European models and learning from experiences of governing religious diversity in other socio-economic and geopolitical contexts. Key analytical and comparative reflections inform the introduction and concluding chapters. This volume offers a research and study companion to better understand the connection between state religion relations and the governance of religious diversity in order to inform both policy and research efforts in accommodating religious diversity. Given its accessible language and further readings provided in each chapter, the volume is ideally suited for undergraduate and graduate students. It will also be a valuable resource for researchers working in the wider field of ethnic migration, religion, and citizenship studies.
