Block Scheduling in an Era of Common Core Curriculum: A Case Study of Administrators' and Teachers' Perceptions for Classroom Practices and Academic Engagement Lisamarie Poveromo-Spindler, 2017 BLOCK SCHEDULING IN AN ERA OF COMMON CORE CURRICULUM ACASE STUDY OF ADMINISTRATORS AND TEACHERS PERCEPTIONS FOR CLASSROOM PRACTICES AND ACADEMIC ENGAGEMENT The landscape of modern educational practice in the United States features a terrain that is often jagged while still being predictable in nature The needs of students are varied and complex and despite the challenges faced most leaders in the field of education agree that schools should be a place that is preparatory challenging and engaging In recent years there has been a great amount of discussion and theorizing on how to increase academic engagement within the classroom to the depth that most professionals agree is needed Through this case study I examined block scheduling in a high school as a vehicle for increasing academic engagement I studied teacher's perceptions and understandings of strategies used to increase student achievement which ultimately led to defining academic engagement through behavioral cognitive and emotional lenses With a holistic definition I was able to study the impact of block scheduling on academic engagement in the classroom This case study employed the use of Charlotte Danielson's Framework for Teaching Danielson 2013 as a lens for viewing the teacher's role in securing proper engagement within the classroom and Bloom's taxonomy revised Anderson 2001 to determine the complexity of student work I considered both the current climate and trends of education in the United States as well as the culture of the community in which the study was conducted Qualitative data regarding the effects of block scheduling on academic engagement were collected through individual interviews observations and analysis of artifacts particular to the case study site Through synthesis of the data collected I determined that although a block schedule requires continued targeted professional development and by itself may not enhance classroom instruction it can prove to be impactful on fostering meaningful teacher student relationships leading to a positive school climate
