The Data Almanac Philip Truscott, Brent Boyer, Josh McCormack, Sandra Wales, 2006 The Data Almanac takes America's most popular reference book and multiplies it by the power of your imagination For 280 years Almanacs have published information on every facet of life The Data Almanac goes one step further by publishing the underlying **The Licensure of Out-of-state Dentists**, 1993 **Misguided Education Reform** Nancy E. Bailey, 2013-07-29 Misguided Education Reform Debating the Impact on Students argues for reforms that will help not hurt America's public school students Early childhood education testing reading special education discipline loss of the arts and school facilities are all areas experiencing reform in the wrong direction This book says no to the reforms that fail and challenges Americans to address the real student needs that will fix public schools and make America strong **Funding for Justice** Stan Karp, 1997 Increased funding is vital to any educational renewal The papers in this publication provide a critical look at the educational system and show that it is clearly a dual system that more than 40 years after the Brown vs the Board of Education decision remains largely separate and unequal A key issue is that of educational standards The glaring weakness in most proposals for academic standards is the conspicuous absence of resources needed to realize them Without dramatic improvements in the conditions of teaching and learning standards will neither raise student achievement nor ensure that those who have been worst served by the schools historically will finally get access to better educational programs The 29 chapters of this book focus on reforms at Federal state and local levels and promote the common theme of educational equity A glossary is included Each chapter contains references SLD *Leading for Excellence* Thomas R.
