Intercultural Communication Conflicts Christina Herzog, 2010 Seminar paper from the year 2010 in the subject English Language and Literature Studies Culture and Applied Geography grade 1 Universit Toulouse II Le Mirail language English abstract Our world today is characterized by a growing number of contacts resulting in communication between people with different languages and cultural background The contact with persons from other cultures is often frustrating and full of misunderstanding Good intentions and a friendly approach don't seem to be sufficient Respect for other cultures is one of the key needs in communication No one should look down on those with different customs languages or cultures but try to look through their eyes and to understand what and how they are seeing the world Communication between cultures takes place because of contacts within the areas of tourism education science entertainment but also business politics or immigration In all these cross cultural contacts communication needs to be constructive without any misunderstandings just because the group to which a person belongs is different Currently new types of relationships are presenting communication challenges that few people are ready to meet In this paper I intend to deal with the concept of communication especially non verbal communication and its features in communicating a message when it happens between different cultures

The Lewis Model and the Differences between Cultures , 2019-12-30 Seminar paper from the year 2018 in the subject Communications Intercultural Communication grade 17 University of Applied Sciences Bielefeld language English abstract The aim of this work is to explain the construct of cross cultural communication using the Richard D Lewis model and to analyze the differences between cultures Intercultural communication is often associated with problems misunderstandings and prejudices In order to smooth communication and to understand the cultures of other countries there are countless models that try to condense cultural behaviour While some researchers have looked at geographical divisions like north south east and west others classified people by religion Muslim Christian Hindu or even by race African Indian Arab But how do you define the east How do you classify a person that is African Arab Lewis seems to have found a solution to the problem by developing the culture type model in 1996 There are three types of cultures and each nation is analyzed and assigned in detail Since it is represented as a triangle hybrid types are also possible The present work focuses on this model A German who is constantly punctual a Mexican who always interrupts one or a Japanese who doesn't keep eye contact during the conversation All these are examples of cultural behavior While the Mexican can't understand why a German has to leave the meeting at four o'clock on the dot the Japanese finds it impolite that the Mexican won't let anyone finish the sentence One often only becomes aware of cultural characteristics and specialties when you move within another culture These kinds of cross cultural relations only exist as a result of globalization the internationalization of markets and new communication technologies Today almost everyone is able to communicate and collaborate with people from all over the world These developments show that intercultural communication and competence is becoming an increasingly important topic Hardly any large company operates only in its own country If one wants to make profit one has to offer one's products not only in one's home country but all over the world It is essential to know the cultural values and behaviors of other nations to be successful in other markets Also political and economic associations like the EU or NAFTA support international collaboration and it is seen as essential and desirable
