The Liberal Media Industrial Complex Mark Dice, 2019-11-12 The media used to mean television radio newspapers and magazines but today it largely involves social media which has swallowed up all of these other forms and is now controlled by a small group of Silicon Valley titans who decide what billions of people are able to see and hear online The convergence of old technology and new has centralized unimaginable power into the hands of a few gigantic corporations that now dictate how we communicate with each other and perceive the outside world Media analyst Mark Dice details how the rise of social media that tipped the balance of power regarding the production and distribution of information has also resulted in a massive backlash from those conspiring to regain the influence they once held Now conservatives are experiencing widespread censorship as the tech giants scramble to put the genie back in the bottle The liberal media has launched an information war against President Trump and his supporters and are using their monopolies to manipulate public opinion in order to further their aims of a socialist revolution St. Elizabeths Hospital United States. International Community Heike Krieger, Dietrich Rauschning, 1997 The long running dispute over East Timor was for many years an unresolved item on the agenda of the international community It involved issues of self determination non recognition and human rights This book was first published in 1996 five years before East Timor regained its independence It thus serves as a record of the basic materials relating to the historical background to the circumstances of the Indonesian invasion and following incorporation of East Timor to the subsequent development of the dispute in the light of the international community s response to it and finally to the 1995 judgment of the International Court of Justice in the case concerning East Timor between Portugal and Australia The volume contains a substantive introduction which places the documents in context and provides an overview of the political and legal issues of the dispute

Economic Development and Political Change in a Workers' Community in Jakarta, Indonesia Bama Athreya, 1998 Why did the number of strikes and other forms of labor unrest in Indonesia increase so dramatically in the early 1990s A number of researchers have attempted to address this question through examination of economic factors and top down political changes Such explanations while accounting for shifts in labor policy fail to address the question of why workers themselves choose to strike This dissertation explores the question of workers rising consciousness through analysis of fieldwork in a proletarianized urban community Fieldwork involved not only participant observation and life history interviews with workers but also in depth case studies of strikes and protests at factories in West Jakarta
