thesis After a brief review of the circumstances that led to the emergence of the War for Talent and first implications for the industry it is argued from a strategic perspective why motivated talent depicts the key resource for competitive advantage and why conventional extrinsic incentive measures aimed at maximizing productivity are no longer effective Afterwards a proposition will be made of how capitalizing on intrinsic motivation human s inner drive to accomplish inherently interesting and challenging tasks fostered through a framework of meaningful work might be the decisive driver to get ahead in the quest for talent A second string of argumentation draws a connection between meaningful work and superior financial performance This proposition is then tested by an empirical analysis comparing the financial performance of publicly traded companies featured on the 2017 Fortune 100 Best Companies to Work For list against a control portfolio and the broad market confirming significant differences for cumulative stock returns **Better Fruit** ,1928 Better fruit for years the reliable dependable publication business publication of the Pacific Northwest commercial fruit growers Covers fruit districts of Washington Oregon Idaho Montana Northern california Circulates in every state in the Union and 26 foreign countries July 1935 Better fruit for years the reliable dependable publication of Western commercial fruit growers Covers fruit districts of Washington Oregon California Idaho Montana and Western Canada Circulates in every state in the Union and many foreign countries June 1967 **Records of the Proceedings and Printed Papers of the Parliament** Australia.
