*Globalization, Democracy and Oil Sector Reform in Nigeria* Adeoye O. Akinola, 2018-01-26 The Nigerian state has been oil rich for decades and yet perennially incapable of converting its oil resources into wealth for ordinary Nigerians Adeoye O Akinola tackles this vexed oil question by examining the political economy of efforts to deregulate the Nigerian downstream oil industry Focusing on themes of globalization and democratization this book considers how a resource rich developing country like Nigeria can exploit the opportunities of globalization and navigate the pressures of democratization and the challenges of liberalization Pairing sophisticated theoretical frameworks with firsthand accounts from actors in the oil industry this book identifies the root causes of Nigeria's development struggles and offers practical policy solutions for successfully deregulating the oil sector For public officials and policymakers as well as researchers this book offers a critical new lens on the future of natural resource management in Nigeria and the Global South [Vision 20 2020 & the Menace of Vandalism](#) Stephen B. Oladipo PhD, 2023-01-15 Economic conditions have vital roles to play in people's experience and perceptions of a place while socioeconomic status equally affects almost all aspects of human life including security of lives and property The book *Vision 20 2020 and the menace of vandalism* is a policy guide and direction signaling material It pictures this global projection which the late President Umar Musa Yar'adua highlighted in his agenda as a dream towards

attaining the nation's golden age The book was equally written to propel the Nigerian government as well as her economic handlers to work towards the nation's emergence as one of the 20 most economically viable nations of the World Clearly the book centers around the dream of development for the Nigerian economy It analyzes the variables for and the debacles against the attainment of the stated economic vision More precisely the book was written to re echo the prophesy of economic prosperity for Nigeria as predicted by the World Bank when the country showed signs of possibilities around mid 2000s The administration of President Olusegun Obasanjo rtd had successfully paid off one of the economic ravaging loans to Paris Club the creditor This accomplishment repositioned Nigeria for greatness with a vision to rank among the top 20 economies around the world in 2020 This tall expectation informed the need for holistic review of the nation's internal potentials and the threats of saboteur which range from growing insecurity to wanton vandalism of infrastructures including crude oil pipelines Crude oil accounts for approximately 65% of the nation's revenue This reality directly ties the fate of the envisioned economic attainment to the effective protection of this sector Fulfillment of responsibility becomes imperative for Nigeria Security and Civil Defense Corps in conquering the war of vandalism to set Nigeria on the path of fulfilling global economic prediction The book advanced other measures to attaining economic stability in Nigeria Well structured policies strong political will and financial discipline were among other suggested measures
