Basic Typing Lessons Finger Keyboard:

Typing Academy Delmer Rohner, 2021-08-11 Touch typing is typing without looking at the keyboard. The fundamental idea is that each finger is given its section of the keyboard and your fingers learn the location of the keyboard through practicing regularly and gaining muscle memory to eventually build up speed whilst typing. Learning to touch type with this method takes only 10 hours. You will reap the benefits for a lifetime whether you are using a keyboard at work or home. The easy to use lessons are provided into manageable one hour blocks and there are plenty of exercises to consolidate what you have learned. And touch typing is a skill that can make you money as well as saving you time. *GED Test For Dummies* Murray Shukyn, 2017-01-30 Score high on the GED Test.
