QR codes link directly to complete units and lessons on the Dynamic PE ASAP website so readers can immediately see application of specific activities. Activity chapters have been reorganized around game themes to better align with current curriculum approaches and new activities and games such as pickleball have been added. This text will help current and future educators promote physical activity beyond the school day. It offers a vast array of evidence-based activities and instructional strategies that will help PETE students shape quality physical education programs, employ successful teaching practices for secondary students, administer a comprehensive school physical activity program (CSPAP), and offer activities that motivate students and improve their skill and competence. Teaching tips also provide insights drawn from the real-life experiences of teachers and teacher educators. DPE continues to meet the needs of preservice and in-service teachers in developing curricula that meet physical education standards. DPE continues to be one of the most widely used and influential secondary physical education texts in the field. It helps readers implement current best practices and equips students with the information they need to create engaging and meaningful PE programs.
